

# AR-15 EDT® SERIES TRIGGER ASSEMBLIES - HIPERFIRE AR-15/10 EDT® SHARP SHOOTER TRIGGER ASSEMBLY

[Rifle Parts](#) > [Triggers Parts](#) > [Triggers](#)

## Smooth, Consistent, Medium-Weight Pull - BIG Improvement Over G.I. Trigger

Hiperfire's EDT triggers give your AR-15 an upgraded single-stage trigger pull without sacrificing "mil-spec" reliability. All four Enhanced Duty Triggers deliver a medium pull weight of 4.5 or 5.5 lbs. - lighter than a plain G.I. trigger for sure, but safe enough for law enforcement, service rifle competition, and personal defense use. Mechanical advantage built into the EDT trigger geometry gives the lighter-than-mil-spec pull weight, while mil-spec hammer energy is preserved to ensure hard, positive primer strikes. Hiperfire coupled the lighter weight with an overall pull profile that is smooth and consistent, with a clean, decisive break, short over-travel, and a fast reset you can feel and hear, making the EDT a very comfortable "shooter's" trigger. Single-stage with minimal creep 2 interchangeable hammer springs for 4.5 or 5.5 lb. pull weight SwingFast Hammer Head™ gives unusually fast locktime Extra-power hammer spring for positive hammer strikes without increasing pull weight Self-cleaning - designed to allow debris to fall out to prevent jams & reset problems Fits small-pin (.153") AR-15 lower receivers & AR 308 rifles that use AR-15 triggers Hiperfire offers the EDT trigger in four configurations: Sharp Shooter is the base-model with features listed above and a curved trigger shoe. Heavy Gunner has the curved shoe and even heavier SwingFast hammer than the Sharp Shooter for ultra-reliable hammer strikes. The Designated Marksman has Hiperfire's Duplex Trigger Bow. Place your finger in a high position for a heavier pull and an extra measure of safety to prevent premature discharge under stress. Low position for precise, target-rifle control. Also has extra-weight Swingfast hammer. Enhanced Duty model is beefed up for full-auto select-fire AR-15 / M16 / M4 type rifles carbines; curved shoe. Hiperfire made the EDT trigger line all about choice: you get to choose the type of trigger pull profile that works best for you - without breaking the bank to do it.

## Attributes

- Name: [HIPERFIRE AR-15/10 EDT® SHARP SHOOTER TRIGGER ASSEMBLY](#)
- Manufacturer: [HIPERFIRE](#)
- Product no.: 100029408
- Mfr. No.: EDTSS
- Style: Single-Stage
- Weapon type: AR-15
- Delivery weight: 0.1kg
- Shipping height: 19mm
- Shipping width: 102mm
- Shipping length: 171mm
- UPC: 859177004379

## Item details

Made in USA

US export classification: 0A501.c

# Safety Instruction Guide for Hiperfire AR15 EDT® Series Trigger Assemblies

## Introduction

Thank you for choosing the Hiperfire AR15 EDT® Series Trigger Assemblies. This guide provides essential safety instructions to ensure the safe use, installation, and disposal of your trigger assembly. Please read this guide carefully to understand the potential hazards and how to avoid them.

## General Safety Guidelines

- Ensure that the trigger assembly is installed by a qualified gunsmith or a knowledgeable individual familiar with firearm components.
- Always treat firearms as if they are loaded. Never point a firearm at anything you do not intend to shoot.
- Keep firearms out of reach of children and unauthorized users.
- Regularly inspect your firearm and trigger assembly for signs of wear or damage. Replace any defective parts immediately.
- Always follow the manufacturer's instructions for safe handling and operation of your firearm.

## Specific Safety Precautions for Use

- **Trigger Pull Weight:** The EDT trigger assemblies offer a lighter pull weight than standard G.I. triggers. Ensure that you are comfortable with the lighter pull weight before use.
- **SingleStage Trigger:** This trigger type provides a direct pull without a twostage mechanism. Be aware of the trigger's sensitivity and practice safe handling.
- **Mechanical Advantage:** The design of the EDT trigger provides a lighter pull while maintaining milspec hammer energy. Familiarize yourself with the trigger's operation to avoid accidental discharges.
- **SelfCleaning Design:** The trigger assembly is designed to prevent jams and reset problems. However, regular cleaning and maintenance are essential for optimal performance.
- **Age and Audience Considerations:** This product is intended for use by individuals who are knowledgeable about firearms. It is not suitable for use by children or inexperienced users.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the firearm is unloaded and pointed in a safe direction before beginning installation.
- Remove the existing trigger assembly according to the manufacturer's instructions.
- Carefully install the Hiperfire EDT trigger assembly into the lower receiver, ensuring that all components are properly aligned.
- Doublecheck that the trigger assembly is securely installed before reassembling the firearm.

### 2. Usage:

- Before using the firearm with the new trigger assembly, conduct a function check to ensure proper operation.
- Practice dry firing in a safe environment to familiarize yourself with the trigger's pull weight and reset.
- Always wear appropriate eye and ear protection when operating your firearm.

## **Disposal Instructions**

- Dispose of the trigger assembly and any related components in accordance with local regulations.
- Do not dispose of firearms or firearm components in regular trash. Contact local authorities or a licensed firearms dealer for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the Hiperfire AR15 EDT® Series Trigger Assemblies, please consult the manufacturer's website or customer support resources.

## **Conclusion**

Your safety is our priority. By following the guidelines outlined in this document, you can ensure the safe operation and enjoyment of your Hiperfire AR15 EDT® Series Trigger Assemblies. Always prioritize safety and responsible firearm handling.
