

# AR-15 EDT® SERIES TRIGGER ASSEMBLIES - HIPERFIRE AR-15/10 EDT® DESIGNATED MARKSMAN TRIGGER ASSEMBLY

[Rifle Parts](#) > [Triggers Parts](#) > [Triggers](#)

## Smooth, Consistent, Medium-Weight Pull - BIG Improvement Over G.I. Trigger

Hiperfire's EDT triggers give your AR-15 an upgraded single-stage trigger pull without sacrificing "mil-spec" reliability. All four Enhanced Duty Triggers deliver a medium pull weight of 4.5 or 5.5 lbs. - lighter than a plain G.I. trigger for sure, but safe enough for law enforcement, service rifle competition, and personal defense use. Mechanical advantage built into the EDT trigger geometry gives the lighter-than-mil-spec pull weight, while mil-spec hammer energy is preserved to ensure hard, positive primer strikes. Hiperfire coupled the lighter weight with an overall pull profile that is smooth and consistent, with a clean, decisive break, short over-travel, and a fast reset you can feel and hear, making the EDT a very comfortable "shooter's" trigger. Single-stage with minimal creep 2 interchangeable hammer springs for 4.5 or 5.5 lb. pull weight SwingFast Hammer Head™ gives unusually fast locktime Extra-power hammer spring for positive hammer strikes without increasing pull weight Self-cleaning - designed to allow debris to fall out to prevent jams & reset problems Fits small-pin (.153") AR-15 lower receivers & AR 308 rifles that use AR-15 triggers Hiperfire offers the EDT trigger in four configurations: Sharp Shooter is the base-model with features listed above and a curved trigger shoe. Heavy Gunner has the curved shoe and even heavier SwingFast hammer than the Sharp Shooter for ultra-reliable hammer strikes. The Designated Marksman has Hiperfire's Duplex Trigger Bow. Place your finger in a high position for a heavier pull and an extra measure of safety to prevent premature discharge under stress. Low position for precise, target-rifle control. Also has extra-weight Swingfast hammer. Enhanced Duty model is beefed up for full-auto select-fire AR-15 / M16 / M4 type rifles carbines; curved shoe. Hiperfire made the EDT trigger line all about choice: you get to choose the type of trigger pull profile that works best for you - without breaking the bank to do it.

## Attributes

- Name: [HIPERFIRE AR-15/10 EDT® DESIGNATED MARKSMAN TRIGGER ASSEMBLY](#)
- Manufacturer: [HIPERFIRE](#)
- Product no.: 100029410
- Mfr. No.: EDTDM
- Style: Single-Stage
- Weapon type: AR-15
- Delivery weight: 0.091kg
- Shipping height: 25mm
- Shipping width: 102mm
- Shipping length: 178mm
- UPC: 859177004393

## Item details

Made in USA

US export classification: 0A501.c

# Safety Instruction Guide for AR15 EDT® Series Trigger Assemblies

## Introduction

Thank you for choosing the Hiperfire AR15 EDT® Series Trigger Assemblies. This guide provides important safety information and instructions to ensure the safe and effective use of your trigger assembly. Please read this guide carefully before installation and use.

## General Safety Guidelines

- Ensure safe use of the product by familiarizing yourself with its features and operation.
- Always follow local laws and regulations regarding firearm modifications and usage.
- Keep the trigger assembly and all firearm components out of reach of children and unauthorized users.
- Regularly inspect your trigger assembly for wear and damage.
- Report any unsafe products or accidents to local authorities immediately.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always treat your firearm as if it is loaded.
- Do not place your finger on the trigger until you are ready to shoot.
- Ensure the firearm is pointed in a safe direction at all times.
- Use only the specified hammer springs for your desired pull weight (4.5 or 5.5 lbs).
- Be aware of the potential for accidental discharge when using a lighter trigger pull.
- Ensure the trigger assembly is properly installed before use.
- Avoid using the firearm in conditions that may cause malfunctions (e.g., extreme dirt, moisture).
- If the firearm fails to fire, keep the muzzle pointed in a safe direction and wait at least 30 seconds before attempting to clear the malfunction.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing trigger assembly from the AR15 lower receiver.
- Follow the manufacturer's instructions for installing the Hiperfire EDT trigger assembly.
- Ensure all components are securely in place and function correctly before reassembling the firearm.

### 2. Usage:

- Adjust the hammer springs to your desired pull weight (4.5 or 5.5 lbs) based on your shooting preference.
- Conduct a function check by dryfiring the firearm in a safe environment.
- Familiarize yourself with the feel of the trigger pull, including the break and reset.
- Regularly practice safe handling and shooting techniques to ensure proficiency with your firearm.

## Disposal Instructions

- Dispose of the trigger assembly according to local regulations concerning firearms and firearm components.
- Do not dispose of the trigger assembly in regular household waste.

- Contact local authorities or waste management services for guidance on proper disposal methods.

## Contact Information for Further Support

For safety inquiries or further assistance regarding the Hiperfire AR15 EDT® Series Trigger Assemblies, please refer to the manufacturer's contact information provided with your product.

Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation. Enjoy your upgraded shooting experience with the Hiperfire AR15 EDT® Series Trigger Assemblies.
