

INTERCHANGEABLE FUNNEL HEADS CALIBER SPECIFIC - AREA 419

INTERCHANGEABLE FUNNEL HEAD FOR 17 CALIBER

[Reloading](#) > [Powder Handling](#) > [Powder Funnels](#)

AREA 419 INTERCHANGEABLE FUNNEL HEADS CALIBER SPECIFIC This product listing is for a caliber specific funnel HEAD ONLY, no funnel or billet storage block included. The Area 419 billet aluminum powder funnel uses a system of interchangeable, caliber specific, heads to make it the ultimate funnel for reloaders available today. Universal plastic powder funnels have several issues that are solved with this system. Static cling, plastic is prone to being charged with static and kernels of powder will stick to the walls causing you to have to tap the funnel to get them all to fall. No such thing as universal. There are always cases that just won't work well with the universal design, and funnels tip off and spill powder, or they just plain won't work. Universal means that it has a hole meant for 22 caliber. So, if you are trying to dump 90 grains into a big magnum, you are waiting a long time for the powder to fill. The Area 419 Funnel's interchangeable heads thread onto the funnel and are neck diameter specific for each caliber (color coded to keep track of them). They do not rely on fitting over the body of the case to hold in place. They are sized slightly larger than the neck diameter so that they hold solid on the case. Each head has a bore sized a few thousandths smaller than the bullet diameter, so maximum flow is achieved for each caliber. This is huge for the super ultra magnum guys (375 Cheytac, 408 Cheytac, 50 BMG, etc.). The interface between the heads and the funnel is designed in such a way that no kernels can ever get stuck between the two, as long as the head is tightened completely. The Funnel's design is both aesthetic and performance driven. Being machined from a solid billet of 6061-T6 aluminum means no static charge to cling kernels to the funnel walls. This also makes it far safer for use with black powder. "Flutes" on the outside are for looks on the inside though, they disturb the powder kernels from trying to jam up at the neck. It also gives some airspace, so they do not get packed up so tightly, all aimed to increase flow through the nozzle. 3/8" tall straight section at the top to help prevent kernels of powder from bouncing out when poured in. Smooth surfaces at the neck of the funnel and inside the heads promote quick flow and prevent any sticking kernels. MADE IN USA! From USA made aluminum, on a USA made HAAS mill, with USA made cutting tools! SPECIFICATIONS: Weight: .1 lbs. Dimensions: .8 x .8 x .8 in Caliber: 17 CAL, 20 CAL, 22 CAL, 6MM/243, 25 CAL, 6.5MM/264, 270 CAL, 7MM/284, 30CAL, 338 CAL, 375 CAL, 408 CAL, 450 Rifle, 50BMG, Dillon Powder Die, Pistol, 3" Drop Tube

Attributes

- Name: [AREA 419 INTERCHANGEABLE FUNNEL HEAD FOR 17 CALIBER](#)
- Manufacturer: [AREA 419](#)
- Product no.: 100029582
- Mfr. No.: 419-FN-HEAD-17
- Caliber: 17 Caliber (.177)
- Delivery weight: 0.014kg
- Shipping height: 16mm
- Shipping width: 76mm
- Shipping length: 146mm
- UPC: 853675008587

Safety Instruction Guide for AREA 419 Interchangeable Funnel Heads

Introduction

Thank you for choosing the AREA 419 Interchangeable Funnel Heads. This guide provides essential safety instructions to ensure the safe use of this product. Please read this manual carefully before using the funnel heads to understand the safety precautions and proper usage guidelines.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as a powder funnel for reloading ammunition.
- Always follow the manufacturer's instructions for installation and usage.
- Keep the product out of reach of children and vulnerable individuals to prevent accidental misuse.
- Use the funnel heads only with compatible calibers as specified by the manufacturer.
- Regularly inspect the funnel heads for any signs of wear or damage before use.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Static Electricity:** The funnel is made from aluminum to minimize static cling. However, avoid using it in extremely dry environments where static may build up.
- **Handling Powders:** Always handle powders in a wellventilated area and avoid inhaling any dust or particles.
- **Tightening Heads:** Ensure that the interchangeable heads are fully tightened before use to prevent spills and blockages.
- **Avoid Overfilling:** Do not overfill the funnel to prevent powder from spilling out during transfer.
- **Black Powder Safety:** Use caution when working with black powder, as it is more sensitive to ignition than smokeless powder.
- **Personal Protective Equipment:** Consider wearing safety glasses and gloves when handling powders to protect against accidental spills or contact.

Instructions for Installation and Usage

1. Installation of Funnel Head:

- Select the appropriate caliberspecific funnel head for your reloading needs.
- Align the threads of the funnel head with the funnel body.
- Twist the funnel head onto the funnel body until it is securely tightened.

2. Using the Funnel:

- Position the funnel over the case or container where you intend to pour the powder.
- Carefully pour the powder into the funnel, ensuring that it flows smoothly without obstruction.
- If the powder does not flow freely, check for blockages and ensure the head is properly tightened.

3. PostUse Care:

- After use, clean the funnel head and funnel body with a dry cloth to remove any residual powder.
- Store the funnel heads in a dry place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or worn funnel heads according to local regulations for metal recycling.
- Do not dispose of powders or any hazardous materials in regular waste. Follow local guidelines for the disposal of reloading components.

Contact Information for Further Support

For any inquiries regarding safety or product usage, please refer to the manufacturer's contact details provided on the product packaging or the official website.

By following these safety instructions, you can ensure a safe and effective experience with the AREA 419 Interchangeable Funnel Heads. Thank you for your attention to these important guidelines.
