

INTERCHANGEABLE FUNNEL HEADS CALIBER SPECIFIC - AREA 419

INTERCHANGEABLE FUNNEL HEAD FOR 6.5MM

[Reloading](#) > [Powder Handling](#) > [Powder Funnels](#)

AREA 419 INTERCHANGEABLE FUNNEL HEADS CALIBER SPECIFIC This product listing is for a caliber specific funnel HEAD ONLY, no funnel or billet storage block included. The Area 419 billet aluminum powder funnel uses a system of interchangeable, caliber specific, heads to make it the ultimate funnel for reloaders available today. Universal plastic powder funnels have several issues that are solved with this system. Static cling, plastic is prone to being charged with static and kernels of powder will stick to the walls causing you to have to tap the funnel to get them all to fall. No such thing as universal. There are always cases that just won't work well with the universal design, and funnels tip off and spill powder, or they just plain won't work. Universal means that it has a hole meant for 22 caliber. So, if you are trying to dump 90 grains into a big magnum, you are waiting a long time for the powder to fill. The Area 419 Funnel's interchangeable heads thread onto the funnel and are neck diameter specific for each caliber (color coded to keep track of them). They do not rely on fitting over the body of the case to hold in place. They are sized slightly larger than the neck diameter so that they hold solid on the case. Each head has a bore sized a few thousandths smaller than the bullet diameter, so maximum flow is achieved for each caliber. This is huge for the super ultra magnum guys (375 Cheytac, 408 Cheytac, 50 BMG, etc.). The interface between the heads and the funnel is designed in such a way that no kernels can ever get stuck between the two, as long as the head is tightened completely. The Funnel's design is both aesthetic and performance driven. Being machined from a solid billet of 6061-T6 aluminum means no static charge to cling kernels to the funnel walls. This also makes it far safer for use with black powder. "Flutes" on the outside are for looks on the inside though, they disturb the powder kernels from trying to jam up at the neck. It also gives some airspace, so they do not get packed up so tightly, all aimed to increase flow through the nozzle. 3/8" tall straight section at the top to help prevent kernels of powder from bouncing out when poured in. Smooth surfaces at the neck of the funnel and inside the heads promote quick flow and prevent any sticking kernels. MADE IN USA! From USA made aluminum, on a USA made HAAS mill, with USA made cutting tools! SPECIFICATIONS: Weight: .1 lbs. Dimensions: .8 x .8 x .8 in Caliber: 17 CAL, 20 CAL, 22 CAL, 6MM/243, 25 CAL, 6.5MM/264, 270 CAL, 7MM/284, 30CAL, 338 CAL, 375 CAL, 408 CAL, 450 Rifle, 50BMG, Dillon Powder Die, Pistol, 3" Drop Tube

Attributes

- Name: [AREA 419 INTERCHANGEABLE FUNNEL HEAD FOR 6.5MM](#)
- Manufacturer: [AREA 419](#)
- Product no.: 100029586
- Mfr. No.: 419-FN-HEAD-6.5
- Caliber: 265/6.5 mm (.265)
- Delivery weight: 0.014kg
- Shipping height: 25mm
- Shipping width: 25mm
- Shipping length: 25mm
- UPC: 853675008624

Safety Instruction Guide for Area 419 Interchangeable Funnel Heads

Introduction

Thank you for choosing the Area 419 Interchangeable Funnel Heads. This product is designed for safe and efficient reloading. Please read this safety instruction guide carefully to ensure proper use and handling of the funnel heads. This guide complies with the EU General Product Safety Regulation (GPSR) to help you understand safety precautions and proper usage.

General Safety Guidelines

- Ensure that you read and understand all safety instructions before using the product.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the funnel heads for any signs of damage or wear before use. Do not use if damaged.
- Always use the funnel heads as intended and according to the specifications provided.
- If you experience any issues while using the product, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Avoid using the funnel heads with incompatible calibers. Refer to the specifications to ensure proper fit.
- Handle the funnel heads with care to avoid injury. The edges may be sharp.
- When pouring powder, do so slowly to prevent spillage and ensure maximum flow.
- Do not attempt to modify the funnel heads; alterations may lead to unsafe conditions.
- Use in a wellventilated area to avoid inhaling any powder particles.
- Store the funnel heads in a dry place to prevent corrosion or damage.

Instructions for Installation and Usage

1. Installation of Funnel Head:

- Select the appropriate caliber-specific funnel head.
- Align the threads of the funnel head with the funnel body.
- Gently thread the head onto the funnel until it is securely tightened.
- Ensure that the head is properly seated to avoid any gaps.

2. Using the Funnel for Reloading:

- Place the funnel over the case or container where the powder will be poured.
- Slowly pour the powder into the funnel. Avoid pouring too quickly to prevent overflow.
- After pouring, gently tap the funnel if necessary to ensure all powder flows through.

3. PostUse Care:

- Clean the funnel head after each use to prevent residue buildup.
- Store the funnel heads in a safe location, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of the funnel heads in accordance with local regulations for aluminum products.
- Do not dispose of funnel heads in regular household waste.
- If the product is damaged beyond use, contact local recycling facilities for proper disposal methods.

Contact Information for Further Support

For safety inquiries, please refer to the EUbased contact information provided with your product packaging. It is important to have access to support for any safety concerns or product issues.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with the Area 419 Interchangeable Funnel Heads. Always prioritize safety and proper handling to enjoy the benefits of this product. Thank you for your attention to these guidelines.
