

REMINGTON 700 SHORT ACTION SCOPE RAILS - AREA 419

REMINGTON 700 20 MOA FULL RAIL

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

Made to Outperform All Others

In their campaign to provide improved, enhanced products in every facet of the market, designers and engineers at Area 419 examined scope bases currently available to consumers and decided that none of them met the company's specifications. In designing the Area 419 Remington 700 Short Action Scope Rail, they improved the design to meet their needs. The Area 419 Remington 700 Short Action Scope Rail features all radiused edges, so it won't snag on any area. Each slot features a radiused edge, and the corners of the lugs are also machined to avoid any kind of catching. The base features machined recoil lugs that prevent any chance of the rail moving during recoil. The attachment areas are machined to the exact specifications of a Remington 700 receiver for a perfect fit, and the unit features a unique ejection-port cut that facilitates seamless operation. Machined from 7075 aluminum Matte-black finish Fits all Picatinny-style attachments Each Area 419 Remington 700 Short Action Scope Rail can be had in two configurations: Full Slotted and ARC Top. Full Slotted rails enable use with all standard Picatinny scope mounts, while the ARC is a proprietary Area 419 design that features enhanced aesthetics but is not compatible with Spuhr or MPA mounts.

Attributes

- Name: [AREA 419 REMINGTON 700 20 MOA FULL RAIL](#)
- Manufacturer: [AREA 419](#)
- Product no.: 100029608
- Mfr. No.: 419-ISR-R700SA20-FS
- Action Type: Bolt Action
- Colour: Matte Black
- Elevation: 20 MOA
- Material: Aluminum
- Model: 700
- Model Number: Full
- Number of Bases: 1-Piece

Safety Instruction Guide for REMINGTON 700 SHORT ACTION SCOPE RAILS AREA 419

Introduction

Thank you for choosing the REMINGTON 700 SHORT ACTION SCOPE RAILS by AREA 419. This guide provides essential safety instructions and guidelines to ensure safe and effective use of this product. Please read this document carefully before installation and use.

General Safety Guidelines

- Ensure that the product is installed correctly to avoid any accidents or injuries.
- Always handle the scope rail with care to prevent damage or injury.
- Keep the product out of reach of children to avoid potential hazards.
- Regularly inspect the scope rail for wear or damage before each use.
- Follow all manufacturer instructions and safety warnings to ensure proper use.

Specific Safety Precautions for Use

- Do not exceed the recommended weight limit for attachments on the rail.
- Ensure that all mounting screws are tightened to the specified torque settings to prevent loosening during use.
- Always check the compatibility of your scope mounts with the Area 419 rail before installation.
- Avoid using the rail in extreme weather conditions, which may affect performance and safety.
- If you notice any unusual movement or looseness during use, stop immediately and inspect the installation.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a torque wrench and appropriate screwdrivers.
- Ensure that the workspace is clean and free from obstructions.

2. Installation Steps:

- Align the Area 419 Remington 700 Short Action Scope Rail with the receiver of your Remington 700.
- Insert the screws into the designated holes of the rail and the receiver.
- Use a torque wrench to tighten the screws to the manufacturer's specified torque settings. This ensures a secure fit and prevents movement during recoil.

3. Usage:

- Once installed, attach your scope to the rail according to the manufacturer's instructions for the scope.
- Regularly check the tightness of the scope and rail before and after each use, especially after heavy use or recoil.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If the product is damaged or no longer usable, recycle materials where possible.

- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For any safety inquiries or concerns regarding the REMINGTON 700 SHORT ACTION SCOPE RAILS, please refer to the manufacturer's contact information provided with the product packaging.

Please ensure that you follow these guidelines to maximize your safety and the performance of your product. Thank you for your attention to these important safety instructions.
