## Robust, Bright & Easy-To-Acquire in Any Light

Night Fision's Perfect Dot night sights for Glock® pistols offer a revolutionary new design that with brighter, more vivid, aiming dots. Like all night sights, Perfect Dots use self-illuminating Tritium to get the "always on" glow that makes them so effective. The difference is PDs have 30% more Tritium, so they are unusually bright. The Tritium insert isn't surrounded by a painted-on ring, but rather one made of a daylight fluorescing material that produces optimum visibility in daylight. The result is what the Night Fision folks have dubbed the "Perfect Dot". The Perfect Dot provides maximum visibility in both nighttime AND daylight conditions, so when the pressure is on, you'll locate your sights more quickly and get them on target - fast. A new mounting system holds the Tritium vial more securely to protect it from the ravages of unexpected knocks and dings. Front sight is brighter than rear, encouraging instinctive "Front Sight Focus" to keep your eyes on the target Rugged machined 4140 steel housings Matte black Nitride finish - excellent wear- and corrosion-resistance Variety of front dot colors & rear notch configurations to choose from (see below) Suppressor Height sights also available Sold as front/rear pairs only We are offering Perfect Dot sights to fit standard (G17-size) / compact frame (G26-size) Glock pistols in the factory heights, as well as Suppressor Height sights for use on Glocks fitted with sound suppressors. A separate model is specifically for the Glock 42 / 43. Other options: Square or U-shaped rear notch, choice of White, Orange, or Yellow outline around front sight. Rear sight options: plain Black (no inserts), Tritium dots (Clear) on either side of notch, or Tritium dots enhanced with White outline. Read the listings below carefully before ordering. With so many options available, you can fit your Glock with a night sight configuration that's perfect for you. Another reason why they're called "Perfect Dot" sights!

# Safety Instructions for PERFECT DOT TRITIUM NIGHT SIGHTS FOR GLOCK®

## Introduction

Thank you for choosing the Perfect Dot Tritium Night Sights for your Glock® pistol. These sights are designed to enhance your shooting experience by providing superior visibility in both lowlight and daylight conditions. It is essential to follow the safety instructions outlined in this guide to ensure safe and effective use of the product.

## General Safety Guidelines

- Always handle firearms with care and in accordance with local laws and regulations.
- Ensure that your Glock® pistol is unloaded when installing or adjusting sights.
- Store the night sights in a safe place, away from children and unauthorized users.
- Regularly inspect the sights for any signs of damage or wear before use.
- If you notice any defects or issues, discontinue use and seek assistance.

## Specific Safety Precautions for Use

- Avoid using the night sights in conjunction with any other optical devices unless specified by the manufacturer.
- Ensure that the Tritium vial is not damaged or leaking. If you suspect damage, do not use the sights.
- Be mindful of the brightness of the sights in varying light conditions; they are designed to be brighter in low light.
- Do not attempt to modify or disassemble the night sights, as this may compromise their safety and effectiveness.
- Use the sights only on compatible Glock® models as specified in the product description.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the Glock® pistol is unloaded.
- Remove the existing sights using appropriate tools.
- Carefully install the Perfect Dot sights by aligning them with the sight dovetails on your Glock®.
- Secure the sights according to the manufacturer's recommendations.

### 2. Usage:

- When aiming, focus on the front sight to enhance target acquisition.
- Practice regularly to become familiar with the sight picture and improve accuracy.
- Adjust your aiming technique based on the lighting conditions; the sights are designed to perform well in both daylight and nighttime settings.

## Disposal Instructions

- Dispose of the night sights in accordance with local regulations regarding hazardous materials.
- If the Tritium vial is damaged, contact local authorities for guidance on safe disposal.
- Do not throw the sights in regular household waste.

## **Contact Information for Further Support**

For any inquiries regarding safety, installation, or product performance, please refer to the manufacturer's contact information provided with your purchase.

By following these safety instructions, you can ensure a safer and more effective experience with your Perfect Dot Tritium Night Sights. Thank you for prioritizing safety and responsible firearm handling.
