

# PERFECT DOT TRITIUM NIGHT SIGHTS FOR GLOCK® - NIGHT FISION GLOCK 17/19/33/46 ORANGE FRONT & CLEAR U NOTCH REAR

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

## Robust, Bright & Easy-To-Acquire in Any Light

Night Fision's Perfect Dot night sights for Glock® pistols offer a revolutionary new design that with brighter, more vivid, aiming dots. Like all night sights, Perfect Dots use self-illuminating Tritium to get the "always on" glow that makes them so effective. The difference is PDs have 30% more Tritium, so they are unusually bright. The Tritium insert isn't surrounded by a painted-on ring, but rather one made of a daylight fluorescing material that produces optimum visibility in daylight. The result is what the Night Fision folks have dubbed the "Perfect Dot". The Perfect Dot provides maximum visibility in both nighttime AND daylight conditions, so when the pressure is on, you'll locate your sights more quickly and get them on target - fast. A new mounting system holds the Tritium vial more securely to protect it from the ravages of unexpected knocks and dings. Front sight is brighter than rear, encouraging instinctive "Front Sight Focus" to keep your eyes on the target Rugged machined 4140 steel housings Matte black Nitride finish - excellent wear- and corrosion-resistance Variety of front dot colors & rear notch configurations to choose from (see below) Suppressor Height sights also available Sold as front/rear pairs only We are offering Perfect Dot sights to fit standard (G17-size) / compact frame (G26-size) Glock pistols in the factory heights, as well as Suppressor Height sights for use on Glocks fitted with sound suppressors. A separate models is specifically for the Glock 42 / 43. Other options: Square or U-shaped rear notch, choice of White, Orange, or Yellow outline around front sight. Rear sight options: plain Black (no inserts), Tritium dots (Clear) on either side of notch, or Tritium dots enhanced with White outline. Read the listings below carefully before ordering. With so many options available, you can fit your Glock with a night sight configuration that's perfect for you. Another reason why they're called "Perfect Dot" sights!

# Safety Instruction Guide for Perfect Dot Tritium Night Sights for Glock

## Introduction

Thank you for choosing the Perfect Dot Tritium Night Sights for your Glock® pistol. This guide provides essential safety information and usage instructions to ensure safe and effective use of your night sights. Please read this manual carefully before installation and use.

## General Safety Guidelines

- **Product Safety:** Ensure that the night sights are installed correctly to avoid any accidents during use. Follow all guidelines provided in this manual.
- **Enhanced Recalls:** Stay informed about any potential recalls by checking the manufacturer's website or relevant safety platforms.
- **Online Shopping:** When purchasing online, ensure that the seller complies with EU safety standards.
- **Special Consumer Focus:** Keep night sights out of reach of children to prevent accidental handling or misuse.
- **EU Contact Point:** For safety inquiries, refer to the manufacturer's contact point listed on their website.
- **Rapid Alerts:** Monitor the EU Safety Gate platform for updates on any unsafe products.

## Specific Safety Precautions for Use

- **Installation:** Ensure that the sights are installed by a qualified gunsmith or follow the installation instructions carefully if you choose to do it yourself.
- **Inspection:** Regularly inspect the sights for any signs of damage or wear. Replace them immediately if any issues are detected.
- **Handling:** Always handle your firearm safely and responsibly. Ensure that the gun is unloaded before attempting to install or inspect the sights.
- **Visibility:** While the sights are designed for optimal visibility in both day and night conditions, always verify your target and surroundings before firing.
- **Use in Adverse Conditions:** Be cautious when using the sights in extreme weather conditions, as visibility may be affected.

## Instructions for Installation and Usage

### Installation Instructions

1. **Gather Tools:** You will need a punch tool, a hammer, and possibly a sight tool specific to your Glock model.
2. **Prepare the Pistol:** Ensure that your Glock is unloaded and pointed in a safe direction.
3. **Remove Existing Sights:**
  - Use the punch tool to gently tap out the existing sights.
  - Be cautious not to damage the slide during this process.
4. **Install Perfect Dot Sights:**
  - Align the front sight and rear sight according to the manufacturer's specifications.
  - Use the punch tool to secure the sights in place, ensuring they are straight and properly aligned.
5. **Final Inspection:** Check that the sights are firmly installed and that there is no movement.

### Usage Instructions

- **Aiming:** Focus on the front sight dot for improved accuracy. The rear notch is designed to assist in quick target acquisition.
- **Lighting Conditions:** The Tritium inserts will glow in low light conditions. In daylight, the daylight

fluorescing material enhances visibility.

- **Maintenance:** Clean the sights regularly with a soft cloth to maintain clarity. Avoid using harsh chemicals that may damage the sights.

## Disposal Instructions

When disposing of the Perfect Dot sights, please follow these guidelines:

- **Environmental Consideration:** Do not dispose of the sights in regular household waste.
- **Local Regulations:** Check local regulations regarding the disposal of Tritium and other materials.
- **Recycling:** If possible, recycle the components according to local recycling guidelines.

## Contact Information for Further Support

For any inquiries regarding the Perfect Dot Tritium Night Sights, please refer to the manufacturer's website for support and assistance. They will provide the most accurate and up to date information regarding your product.

By following these safety instructions, you can ensure the effective and safe use of your Perfect Dot Tritium Night Sights for Glock. Always prioritize safety and responsible handling when using your firearm.
