

# PERFECT DOT TRITIUM NIGHT SIGHTS FOR GLOCK® - NIGHT FISION GLOCK 17/19/33/46 YELLOW FRONT & CLEAR U NOTCH REAR

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

## Robust, Bright & Easy-To-Acquire in Any Light

Night Fision's Perfect Dot night sights for Glock® pistols offer a revolutionary new design that with brighter, more vivid, aiming dots. Like all night sights, Perfect Dots use self-illuminating Tritium to get the "always on" glow that makes them so effective. The difference is PDs have 30% more Tritium, so they are unusually bright. The Tritium insert isn't surrounded by a painted-on ring, but rather one made of a daylight fluorescing material that produces optimum visibility in daylight. The result is what the Night Fision folks have dubbed the "Perfect Dot". The Perfect Dot provides maximum visibility in both nighttime AND daylight conditions, so when the pressure is on, you'll locate your sights more quickly and get them on target - fast. A new mounting system holds the Tritium vial more securely to protect it from the ravages of unexpected knocks and dings. Front sight is brighter than rear, encouraging instinctive "Front Sight Focus" to keep your eyes on the target. Rugged machined 4140 steel housings Matte black Nitride finish - excellent wear- and corrosion-resistance. Variety of front dot colors & rear notch configurations to choose from (see below). Suppressor Height sights also available. Sold as front/rear pairs only. We are offering Perfect Dot sights to fit standard (G17-size) / compact frame (G26-size) Glock pistols in the factory heights, as well as Suppressor Height sights for use on Glocks fitted with sound suppressors. A separate model is specifically for the Glock 42 / 43. Other options: Square or U-shaped rear notch, choice of White, Orange, or Yellow outline around front sight. Rear sight options: plain Black (no inserts), Tritium dots (Clear) on either side of notch, or Tritium dots enhanced with White outline. Read the listings below carefully before ordering. With so many options available, you can fit your Glock with a night sight configuration that's perfect for you. Another reason why they're called "Perfect Dot" sights!

# Safety Instruction Guide for Perfect Dot Tritium Night Sights for Glock®

## Introduction

Thank you for choosing Night Fision's Perfect Dot Tritium Night Sights for your Glock® pistols. This guide provides essential safety instructions and usage information to ensure your product is used safely and effectively. Please read this guide carefully before installation and use.

## General Safety Guidelines

- Always ensure that your Glock® is unloaded before installing or handling the night sights.
- Follow all local laws and regulations regarding firearm usage and accessories.
- Keep the night sights out of reach of children and unauthorized users.
- Inspect the sights regularly for any signs of damage or wear.
- If you notice any issues with the sights, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- The Tritium used in these sights is safe under normal conditions. However, if the vial is broken, avoid contact with the contents and follow proper disposal guidelines.
- Avoid using the sights in extreme temperatures or conditions that may affect their performance.
- Do not attempt to modify or disassemble the night sights, as this can compromise their effectiveness and safety.
- Be aware that the front sight is brighter than the rear sight, which is designed to enhance "Front Sight Focus." Practice using this feature to improve your shooting accuracy.

## Instructions for Installation and Usage

### 1. Installation Steps:

- Ensure your Glock® is unloaded and pointed in a safe direction.
- Remove the existing sights using a sight removal tool.
- Clean the sight dovetails on the slide to remove any debris.
- Align the new Perfect Dot sights in the dovetail slots, starting with the rear sight.
- Gently tap the sights into place using a nonmarring tool, ensuring they are securely fitted.
- Check alignment and make adjustments as necessary.

### 2. Usage Instructions:

- Familiarize yourself with the sight picture provided by the Perfect Dot sights.
- Practice aiming in various lighting conditions to understand how the Tritium illumination works.
- Regularly check the sights for proper alignment and brightness.

## Disposal Instructions

- Dispose of any damaged sights or components in accordance with local waste disposal regulations.
- If the Tritium vial is broken, handle with care and consult local hazardous waste guidelines for proper disposal.

## **Contact Information for Further Support**
