

# PERFECT DOT TRITIUM NIGHT SIGHTS FOR GLOCK® - NIGHT FISION GLOCK 42/43 ORANGE FRONT & BLACK U-SHAPED NOTCH REAR

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

## Robust, Bright & Easy-To-Acquire in Any Light

Night Fision's Perfect Dot night sights for Glock® pistols offer a revolutionary new design that with brighter, more vivid, aiming dots. Like all night sights, Perfect Dots use self-illuminating Tritium to get the "always on" glow that makes them so effective. The difference is PDs have 30% more Tritium, so they are unusually bright. The Tritium insert isn't surrounded by a painted-on ring, but rather one made of a daylight fluorescing material that produces optimum visibility in daylight. The result is what the Night Fision folks have dubbed the "Perfect Dot". The Perfect Dot provides maximum visibility in both nighttime AND daylight conditions, so when the pressure is on, you'll locate your sights more quickly and get them on target - fast. A new mounting system holds the Tritium vial more securely to protect it from the ravages of unexpected knocks and dings. Front sight is brighter than rear, encouraging instinctive "Front Sight Focus" to keep your eyes on the target Rugged machined 4140 steel housings Matte black Nitride finish - excellent wear- and corrosion-resistance Variety of front dot colors & rear notch configurations to choose from (see below) Suppressor Height sights also available Sold as front/rear pairs only We are offering Perfect Dot sights to fit standard (G17-size) / compact frame (G26-size) Glock pistols in the factory heights, as well as Suppressor Height sights for use on Glocks fitted with sound suppressors. A separate models is specifically for the Glock 42 / 43. Other options: Square or U-shaped rear notch, choice of White, Orange, or Yellow outline around front sight. Rear sight options: plain Black (no inserts), Tritium dots (Clear) on either side of notch, or Tritium dots enhanced with White outline. Read the listings below carefully before ordering. With so many options available, you can fit your Glock with a night sight configuration that's perfect for you. Another reason why they're called "Perfect Dot" sights!

# Safety Instruction Guide for PERFECT DOT TRITIUM NIGHT SIGHTS FOR GLOCK®

## Introduction

Thank you for choosing the Perfect Dot Tritium Night Sight for your Glock® pistol. This guide provides essential safety instructions, installation procedures, and usage tips to ensure safe and effective use of your night sights. Please read this guide carefully before installation and usage.

## General Safety Guidelines

- Ensure that you are using the Perfect Dot night sights specifically designed for Glock® models 42 and 43.
- Always handle firearms safely and responsibly, following all local laws and regulations.
- Keep the night sights out of reach of children and unauthorized users.
- Regularly inspect the sights for any signs of damage or wear. If you notice any issues, do not use the sights and seek professional assistance.
- Be aware that the Tritium used in these sights is a radioactive material. While it is safe under normal use, avoid breaking or damaging the sights to prevent exposure.

## Specific Safety Precautions for Use

- Always ensure your firearm is unloaded before installing or adjusting the night sights.
- Use appropriate tools for installation to avoid damaging the sights or the firearm.
- Avoid using excessive force when installing the sights, as this may cause damage.
- If you experience any discomfort or adverse effects when using the sights, discontinue use and consult a professional.
- Be cautious when using the sights in lowlight conditions, as rapid changes in light can affect your vision.

## Instructions for Installation and Usage

### Installation Instructions

1. **Preparation:** Ensure your Glock® pistol is unloaded and pointed in a safe direction.
2. **Remove Existing Sights:** Use a sight pusher tool to carefully remove the existing sights from your Glock®.
3. **Install Front Sight:**
  - Align the Perfect Dot front sight with the dovetail slot on the slide.
  - Gently push the sight into place using the sight pusher tool.
4. **Install Rear Sight:**
  - Align the Perfect Dot rear sight with the dovetail slot on the slide.
  - Gently push the sight into place using the sight pusher tool.
5. **Check Alignment:** Ensure both sights are aligned properly for accurate aiming.
6. **Secure Installation:** Once installed, check that the sights are secure. If necessary, use a small amount of threadlocking adhesive to prevent loosening.

### Usage Instructions

- To effectively use your Perfect Dot night sights, focus on the front sight during aiming.
- The front sight is designed to be brighter than the rear sight, facilitating instinctive aiming.
- Practice regularly in both lowlight and daylight conditions to become familiar with the sight alignment and visibility.
- When using your firearm, always maintain proper shooting stance and grip to ensure accuracy.

## **Disposal Instructions**

- Dispose of the Perfect Dot night sights in accordance with local regulations for electronic waste and hazardous materials.
- If the sights become damaged, do not attempt to repair them yourself. Contact a professional for proper disposal.

## **Contact Information for Further Support**

For any inquiries regarding safety, installation, or usage of the Perfect Dot night sights, please reach out to the manufacturer or your local firearms specialist.

By following these safety instructions, you can ensure a safe and effective experience with your Perfect Dot Tritium Night Sights for Glock®. Always prioritize safety and responsible firearm handling.
