

PERFECT DOT TRITIUM NIGHT SIGHTS FOR GLOCK® - NIGHT FISION GLOCK 42/43 YELLOW FRONT & BLACK U NOTCH REAR

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

Robust, Bright & Easy-To-Acquire in Any Light

Night Fision's Perfect Dot night sights for Glock® pistols offer a revolutionary new design that with brighter, more vivid, aiming dots. Like all night sights, Perfect Dots use self-illuminating Tritium to get the "always on" glow that makes them so effective. The difference is PDs have 30% more Tritium, so they are unusually bright. The Tritium insert isn't surrounded by a painted-on ring, but rather one made of a daylight fluorescing material that produces optimum visibility in daylight. The result is what the Night Fision folks have dubbed the "Perfect Dot". The Perfect Dot provides maximum visibility in both nighttime AND daylight conditions, so when the pressure is on, you'll locate your sights more quickly and get them on target - fast. A new mounting system holds the Tritium vial more securely to protect it from the ravages of unexpected knocks and dings. Front sight is brighter than rear, encouraging instinctive "Front Sight Focus" to keep your eyes on the target. Rugged machined 4140 steel housings Matte black Nitride finish - excellent wear- and corrosion-resistance. Variety of front dot colors & rear notch configurations to choose from (see below). Suppressor Height sights also available. Sold as front/rear pairs only. We are offering Perfect Dot sights to fit standard (G17-size) / compact frame (G26-size) Glock pistols in the factory heights, as well as Suppressor Height sights for use on Glocks fitted with sound suppressors. A separate model is specifically for the Glock 42 / 43. Other options: Square or U-shaped rear notch, choice of White, Orange, or Yellow outline around front sight. Rear sight options: plain Black (no inserts), Tritium dots (Clear) on either side of notch, or Tritium dots enhanced with White outline. Read the listings below carefully before ordering. With so many options available, you can fit your Glock with a night sight configuration that's perfect for you. Another reason why they're called "Perfect Dot" sights!

Safety Instruction Guide for Perfect Dot Tritium Night Sights for Glock®

Introduction

Thank you for choosing Night Fision's Perfect Dot Tritium Night Sights for your Glock® pistol. This guide provides important safety information and instructions to ensure safe and effective use of your night sights. Please read this document carefully before installation and use.

General Safety Guidelines

- **Product Safety:** Ensure safe handling and use of the night sights. Follow all instructions provided.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices related to this product. Check official sources for updates.
- **Online Shopping:** If purchased online, ensure the platform meets safety requirements and provides the same protections as physical stores.
- **Special Consumer Focus:** Keep night sights out of reach of children and ensure they are not used by individuals who may not understand their operation.
- **EU Contact Point:** For any safety inquiries or concerns, refer to the designated EU contact point for this product.
- **Rapid Alerts:** Be aware of the Safety Gate system for updates on unsafe products.

Specific Safety Precautions for Use

- **Avoid Impact:** Protect the night sights from drops or impacts that may damage the Tritium vial or affect alignment.
- **Check Visibility:** Ensure that the sights are visible in both low light and daylight conditions before use.
- **Proper Handling:** Handle the sights with care to avoid scratching or damaging the Tritium insert.
- **Installation:** Follow the installation instructions carefully to ensure proper alignment and functionality.
- **Regular Inspection:** Periodically inspect the sights for any signs of damage or wear, and replace if necessary.

Instructions for Installation and Usage

1. Installation:

- Ensure your Glock® pistol is unloaded and safe to handle.
- Use appropriate tools for removing the existing sights from your Glock®.
- Align the Perfect Dot night sights according to the manufacturer's instructions.
- Securely fasten the sights without overtightening, which may cause damage.

2. Usage:

- Familiarize yourself with the sight picture and ensure proper alignment before aiming.
- Practice using the sights in both low light and daylight conditions to understand their performance.
- Maintain focus on the front sight while aiming to enhance accuracy.

Disposal Instructions

- Dispose of the night sights responsibly according to local regulations.
- Do not dispose of in regular household waste.
- Contact your local waste management facility for proper disposal methods for Tritium-containing products.

Contact Information for Further Support

For any questions or concerns regarding the Perfect Dot Tritium Night Sights for Glock®, please refer to the designated EU contact point associated with this product.

Thank you for your attention to these safety instructions. Enjoy your enhanced shooting experience with Night Fision's Perfect Dot night sights!
