

PERFECT DOT TRITIUM NIGHT SIGHTS FOR GLOCK® - NIGHT FISION SUPP HEIGHT G17/19 WHITE FRONT & WHITE SQUARE NOTCH REAR

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

Robust, Bright & Easy-To-Acquire in Any Light

Night Fision's Perfect Dot night sights for Glock® pistols offer a revolutionary new design that with brighter, more vivid, aiming dots. Like all night sights, Perfect Dots use self-illuminating Tritium to get the "always on" glow that makes them so effective. The difference is PDs have 30% more Tritium, so they are unusually bright. The Tritium insert isn't surrounded by a painted-on ring, but rather one made of a daylight fluorescing material that produces optimum visibility in daylight. The result is what the Night Fision folks have dubbed the "Perfect Dot". The Perfect Dot provides maximum visibility in both nighttime AND daylight conditions, so when the pressure is on, you'll locate your sights more quickly and get them on target - fast. A new mounting system holds the Tritium vial more securely to protect it from the ravages of unexpected knocks and dings. Front sight is brighter than rear, encouraging instinctive "Front Sight Focus" to keep your eyes on the target Rugged machined 4140 steel housings Matte black Nitride finish - excellent wear- and corrosion-resistance Variety of front dot colors & rear notch configurations to choose from (see below) Suppressor Height sights also available Sold as front/rear pairs only We are offering Perfect Dot sights to fit standard (G17-size) / compact frame (G26-size) Glock pistols in the factory heights, as well as Suppressor Height sights for use on Glocks fitted with sound suppressors. A separate model is specifically for the Glock 42 / 43. Other options: Square or U-shaped rear notch, choice of White, Orange, or Yellow outline around front sight. Rear sight options: plain Black (no inserts), Tritium dots (Clear) on either side of notch, or Tritium dots enhanced with White outline. Read the listings below carefully before ordering. With so many options available, you can fit your Glock with a night sight configuration that's perfect for you. Another reason why they're called "Perfect Dot" sights!

Safety Instruction Guide for Perfect Dot Tritium Night Sights for Glock®

Introduction

Thank you for choosing the Perfect Dot Tritium Night Sights for your Glock® pistol. This guide provides essential safety instructions to ensure the safe use of the product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before installation and use.

General Safety Guidelines

- Ensure that the night sights are installed by a qualified gunsmith or following professional guidance to avoid improper installation.
- Always handle your firearm with care and ensure it is unloaded when installing or adjusting the sights.
- Store the night sights in a cool, dry place away from direct sunlight.
- Regularly inspect the night sights for any signs of damage or wear. If you notice any issues, refrain from using the sights and seek professional assistance.
- Be aware of your surroundings and ensure that the firearm is pointed in a safe direction at all times.

Specific Safety Precautions for Use

- The Tritium used in these sights is safe under normal use. However, avoid any direct contact with the Tritium vials to prevent any potential injury.
- If the Tritium vial is damaged or broken, do not handle it. Contact a qualified professional for safe disposal.
- The sights are designed for adult use. Keep them out of reach of children and unauthorized users.
- Use caution when adjusting the sights; improper adjustments may affect accuracy and safety.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the factory sights using appropriate tools.
- Align the Perfect Dot sights with the mounting system on your Glock® and secure them according to the manufacturer's instructions.
- Confirm that the sights are firmly attached and properly aligned before use.

2. Usage:

- Familiarize yourself with the sight picture provided by the Perfect Dot sights.
- Practice aiming with the sights in both daylight and lowlight conditions to understand their performance.
- Maintain focus on the front sight when aiming to enhance accuracy.

Disposal Instructions

- Dispose of any damaged or broken sights in accordance with local regulations.
- For Tritium vials that are broken or damaged, contact a qualified professional for safe disposal methods. Do not attempt to dispose of them yourself.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the Perfect Dot Tritium Night Sights, please refer to the manufacturer's contact information provided on the product packaging or official website.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your Perfect Dot Tritium Night Sights for Glock®. Always prioritize safety and seek professional assistance when needed. Thank you for your attention to these guidelines.
