

# PERFECT DOT TRITIUM NIGHT SIGHTS FOR GLOCK® - NIGHT FISION SUPP HEIGHT G17/19 WHITE FRONT & BLACK SQUARE NOTCH REAR

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

## Robust, Bright & Easy-To-Acquire in Any Light

Night Fision's Perfect Dot night sights for Glock® pistols offer a revolutionary new design that with brighter, more vivid, aiming dots. Like all night sights, Perfect Dots use self-illuminating Tritium to get the "always on" glow that makes them so effective. The difference is PDs have 30% more Tritium, so they are unusually bright. The Tritium insert isn't surrounded by a painted-on ring, but rather one made of a daylight fluorescing material that produces optimum visibility in daylight. The result is what the Night Fision folks have dubbed the "Perfect Dot". The Perfect Dot provides maximum visibility in both nighttime AND daylight conditions, so when the pressure is on, you'll locate your sights more quickly and get them on target - fast. A new mounting system holds the Tritium vial more securely to protect it from the ravages of unexpected knocks and dings. Front sight is brighter than rear, encouraging instinctive "Front Sight Focus" to keep your eyes on the target. Rugged machined 4140 steel housings Matte black Nitride finish - excellent wear- and corrosion-resistance. Variety of front dot colors & rear notch configurations to choose from (see below). Suppressor Height sights also available. Sold as front/rear pairs only. We are offering Perfect Dot sights to fit standard (G17-size) / compact frame (G26-size) Glock pistols in the factory heights, as well as Suppressor Height sights for use on Glocks fitted with sound suppressors. A separate model is specifically for the Glock 42 / 43. Other options: Square or U-shaped rear notch, choice of White, Orange, or Yellow outline around front sight. Rear sight options: plain Black (no inserts), Tritium dots (Clear) on either side of notch, or Tritium dots enhanced with White outline. Read the listings below carefully before ordering. With so many options available, you can fit your Glock with a night sight configuration that's perfect for you. Another reason why they're called "Perfect Dot" sights!

# Safety Instruction Guide for Perfect Dot Tritium Night Sights for Glock®

## Introduction

Thank you for choosing Night Fision's Perfect Dot Tritium Night Sights for your Glock® pistol. These night sights are designed to enhance your aiming experience in both lowlight and daylight conditions. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always ensure that your firearm is unloaded before installing or handling the night sights.
- Store the night sights in a safe and dry place when not in use.
- Regularly inspect the night sights for any signs of damage or wear.
- Avoid exposing the sights to extreme temperatures or harsh chemicals.
- Keep the sights out of reach of children and vulnerable individuals.
- If you experience any issues or concerns with the night sights, discontinue use and seek assistance.

## Specific Safety Precautions for Use

- The Tritium used in these sights is a radioactive material; however, it is safely contained within the sight. Do not attempt to open or tamper with the sights.
- If the Tritium vial is damaged and you notice a glow or any leakage, do not handle it directly. Contact local authorities for disposal.
- Use caution when handling your Glock® pistol with the night sights installed. Ensure proper grip and stance to avoid accidents.
- Be aware that the front sight is brighter than the rear sight, which encourages instinctive "Front Sight Focus." Familiarize yourself with this feature during practice sessions.

## Instructions for Installation and Usage

### 1. Installation Instructions:

- Ensure your Glock® pistol is unloaded.
- Remove the existing sights using a sight pusher or appropriate tool.
- Align the Perfect Dot sights with the mounting system and press them into place securely.
- Check that the sights are correctly aligned and firmly attached before use.

### 2. Usage Instructions:

- When aiming, focus on the front sight dot to enhance target acquisition.
- Practice in various lighting conditions to become accustomed to the sight's visibility.
- Regularly clean the sights to maintain optimal performance. Use a soft cloth and avoid abrasive materials.

## Disposal Instructions

- If the night sights are damaged beyond use, dispose of them following local regulations for hazardous materials due to the Tritium content.
- Contact local waste management authorities for guidance on safe disposal methods.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the Perfect Dot Tritium Night Sights, please consult the manufacturer or your retailer for assistance.

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your Perfect Dot Tritium Night Sights for Glock®. Thank you for your attention to safety.
