

PERFECT DOT TRITIUM NIGHT SIGHTS FOR CANIK - CANIK TP9SFX/TP9SFL ORANGE FRONT & BLACK U NOTCH REAR

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

Nearly One-Third Brighter Than Standard Night Sights!

Night Fision's Perfect Dot sights for Canik TP9-series pistols feature design upgrades that make them brighter, more vivid, and more durable than traditional night sights. Like all night sights, Perfect Dots use self-illuminating Tritium to get the "always on" glow that makes them so effective. The difference is PDs have 30% MORE Tritium in them, so they are unusually bright. And the bold front sight draws the eye, encouraging fast, instinctive "Front Sight Focus" to keep your eyes on the target. The Tritium insert isn't surrounded by a painted-on ring, but rather one made of a daylight fluorescing material that produces optimum visibility in daylight. The result is what the Night Fision folks call the "Perfect Dot". Provides maximum visibility in both nighttime AND daylight conditions, so when the pressure is on, you'll locate your Canik TP9's sights quickly - and get them on target fast. Robust machined 4140 steel sight bodies - far stronger than the factory plastic Matte black Nitride finish - excellent wear- and corrosion-resistance Tritium vial has extra protection from knocks & dings Variety of front dot colors & rear notch configurations to choose from (see below) Sold as front/rear pairs only We are offering Perfect Dot sights to fit TP9SFL / TP9SFX pistols in the factory heights. A separate model fits TP9SA / TP9SF / TP9SF Elite Canik pistols. Options include a choice of Square or U-shaped rear notch in plain Black (no inserts) or with Tritium dots (Clear) on either side of notch. Front dot options include a choice of Orange or Yellow outline around the Tritium dot. Read the listings below carefully before ordering. With so many options available, you can fit your Canik TP9 with a "Perfect Dot" night sight configuration that's... perfect for you.

Safety Instruction Guide for Perfect Dot Tritium Night Sights for Canik TP9SFX/TP9SFL

Introduction

Thank you for choosing the Perfect Dot Tritium Night Sights for your Canik TP9series pistol. These sights are designed to enhance your shooting experience by providing superior visibility in both lowlight and daylight conditions. This guide provides essential safety instructions, installation guidelines, and contact information for support.

General Safety Guidelines

- Ensure safe handling of your firearm and accessories at all times.
- Always treat your firearm as if it is loaded, even when it is not.
- Familiarize yourself with the local laws and regulations regarding firearm accessories.
- Store your sights and firearm securely to prevent unauthorized access, especially by children.
- Regularly inspect your sights for any signs of damage or wear.

Specific Safety Precautions for Use

- Use the sights only for their intended purpose with compatible Canik TP9series pistols.
- Do not modify the sights or attempt to disassemble them.
- Ensure that the sights are installed correctly to avoid any misalignment that could affect accuracy.
- If you notice any unusual performance or damage, discontinue use immediately and seek assistance.
- Keep the sights clean and free from debris to maintain optimal visibility.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools for installation (e.g., screwdriver, sight pusher).

2. Removing the Existing Sights:

- Carefully remove the factory sights using the appropriate tools.
- Store the original sights in a safe place in case you need to reinstall them.

3. Installing the Perfect Dot Sights:

- Align the new front sight with the mounting dovetail on the slide.
- Use a sight pusher or appropriate tool to press the sight into place gently.
- Repeat the process for the rear sight, ensuring it is aligned correctly.

4. Final Check:

- Once installed, check the alignment of both sights to ensure they are straight and properly positioned.
- Test the sights in a safe environment to confirm they are functioning as intended.

5. Usage:

- Practice aiming with the sights in various lighting conditions to become familiar with their performance.

- Maintain focus on the front sight to enhance accuracy during shooting.

Disposal Instructions

- Dispose of any damaged or broken sights following local regulations for electronic waste.
- Do not dispose of the sights in regular household waste.
- Consider recycling where possible.

Contact Information for Further Support

For any inquiries related to safety, installation, or product performance, please refer to the manufacturer's contact information provided with your purchase.

By following these guidelines, you can ensure safe and effective use of your Perfect Dot Tritium Night Sights. Always prioritize safety and responsible firearm handling practices. Thank you for your attention to these important safety instructions.
