

# PERFECT DOT TRITIUM NIGHT SIGHTS FOR CANIK - CANIK TP9SFX/TP9SFL YELLOW FRONT & BLACK U NOTCH REAR

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

## Nearly One-Third Brighter Than Standard Night Sights!

Night Fision's Perfect Dot sights for Canik TP9-series pistols feature design upgrades that make them brighter, more vivid, and more durable than traditional night sights. Like all night sights, Perfect Dots use self-illuminating Tritium to get the "always on" glow that makes them so effective. The difference is PDs have 30% MORE Tritium in them, so they are unusually bright. And the bold front sight draws the eye, encouraging fast, instinctive "Front Sight Focus" to keep your eyes on the target. The Tritium insert isn't surrounded by a painted-on ring, but rather one made of a daylight fluorescing material that produces optimum visibility in daylight. The result is what the Night Fision folks call the "Perfect Dot". Provides maximum visibility in both nighttime AND daylight conditions, so when the pressure is on, you'll locate your Canik TP9's sights quickly - and get them on target fast. Robust machined 4140 steel sight bodies - far stronger than the factory plastic Matte black Nitride finish - excellent wear- and corrosion-resistance Tritium vial has extra protection from knocks & dings Variety of front dot colors & rear notch configurations to choose from (see below) Sold as front/rear pairs only We are offering Perfect Dot sights to fit TP9SFL / TP9SFX pistols in the factory heights. A separate model fits TP9SA / TP9SF / TP9SF Elite Canik pistols. Options include a choice of Square or U-shaped rear notch in plain Black (no inserts) or with Tritium dots (Clear) on either side of notch. Front dot options include a choice of Orange or Yellow outline around the Tritium dot. Read the listings below carefully before ordering. With so many options available, you can fit your Canik TP9 with a "Perfect Dot" night sight configuration that's... perfect for you.

# Safety Instruction Guide for Perfect Dot Tritium Night Sights for Canik TP9SFX/TP9SFL

## Introduction

Thank you for choosing the Perfect Dot Tritium Night Sights for your Canik TP9series pistol. This guide provides essential safety instructions, installation procedures, and usage tips to ensure a safe and effective experience with your night sights. Please read this document carefully before use.

## General Safety Guidelines

- Always ensure that your firearm is unloaded before installing or handling the night sights.
- Use the night sights only as intended, following the manufacturer's recommendations.
- Keep night sights out of reach of children and other vulnerable individuals.
- Regularly inspect the night sights for any signs of damage or wear.
- In case of any malfunction or if you suspect the night sights are not functioning correctly, cease use immediately and consult a qualified professional.

## Specific Safety Precautions for Use

- Do not attempt to modify or disassemble the night sights, as this may compromise their safety and performance.
- Avoid using the night sights in conditions that exceed their operational limits (e.g., extreme temperatures or exposure to harsh chemicals).
- Ensure that the sights are securely mounted on the firearm before use.
- Be aware of your surroundings and ensure that the firearm is pointed in a safe direction while aiming or adjusting the sights.

## Instructions for Installation and Usage

### Installation

1. **Gather Required Tools:** Ensure you have the necessary tools for installation, including a sight pusher or appropriate screwdriver.
2. **Unload Firearm:** Always make sure your firearm is completely unloaded before proceeding with installation.
3. **Remove Existing Sights:** If applicable, carefully remove the existing sights from your Canik TP9series pistol.
4. **Install Front Sight:**
  - Align the Perfect Dot front sight with the dovetail on the slide.
  - Use a sight pusher or appropriate tool to gently press the sight into place.
5. **Install Rear Sight:**
  - Align the rear sight with the dovetail on the slide.
  - Ensure the sight is level and centered before securing it.
6. **Check Alignment:** Confirm that both sights are properly aligned and securely attached.
7. **Test Functionality:** Before using your firearm, test the alignment of the sights to ensure they are functioning correctly.

### Usage

- To utilize the sights effectively, focus on the front sight while keeping the target in your peripheral vision.
- The Tritium insert will glow in lowlight conditions, enhancing visibility.
- Practice regularly to become accustomed to using the sights for improved accuracy.

## **Disposal Instructions**

- Dispose of the night sights in accordance with local regulations for electronic waste.
- If the night sights are damaged or no longer functional, do not attempt to repair them; instead, dispose of them responsibly.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the Perfect Dot Tritium Night Sights, please refer to the manufacturer's website or customer support resources.

## **Conclusion**

By following the safety instructions outlined in this guide, you can ensure a safe and effective experience with your Perfect Dot Tritium Night Sights. Always prioritize safety and proper usage to enhance your shooting experience. Thank you for your attention to these important guidelines.
