

PERFECT DOT TRITIUM NIGHT SIGHTS FOR SIG SAUER - SIG P SERIES 9MM/357 YELLOW FRONT & BLACK U NOTCH REAR

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

Extra-Bright & Easy-To-Acquire in ANY Light

Perfect Dot night sights for SIG Sauer P-series pistols from Night Fision use proven Tritium illumination technology in the front sight with a plus: 30% more Tritium for a much brighter, easier-to-locate dot! Paired with a plain black rear sight, the ultra-bright front sight grabs the eye's attention, encouraging instinctive "Front Sight Focus," so your eyes stay on the target. The Tritium insert isn't surrounded by a painted-on ring, but rather one made of a daylight fluorescing material that produces optimum visibility in daylight. The Night Fision folks call it the "Perfect Dot," which provides maximum visibility in both nighttime AND daylight conditions. When the pressure is on, you'll locate your SIG's sights quickly - and get them on target fast. Variety of front dot colors & rear notch configurations to choose from (see below)

Rugged machined 4140 steel sight bodies - far stronger than the factory plastic Tough black Nitride finish for outstanding wear- and corrosion-resistance Tritium vial has extra protection from knocks & dings Sold as front/rear pairs only Night Fision Perfect Dot night sights for SIG Sauer P-series pistols are available in two sizes, one to fit in SIGs chambered in 9mm Luger (9x19mm) / .357 SIG, the other for the .40 S&W / .45 ACP chambered P-series. Options include a choice of Square or U-shaped rear notch on the plain black rear sight, with a choice of Orange or Yellow outline around the Tritium front dot. You can fit your SIG with a "Perfect Dot" night sight configuration that's perfect for your needs.

Safety Instruction Guide for Perfect Dot Tritium Night Sights for SIG Sauer P Series

Introduction

Thank you for choosing the Perfect Dot Tritium Night Sights for your SIG Sauer P Series pistol. This guide provides important safety information and instructions to ensure the safe use and maintenance of your night sights. Please read this guide carefully before installation and use.

General Safety Guidelines

- Ensure that the night sights are installed by a qualified gunsmith or experienced individual to avoid improper installation that could lead to accidents.
- Always treat your firearm as if it is loaded, even when it is not.
- Keep the night sights and firearm out of reach of children and unauthorized users.
- Regularly inspect the night sights for any signs of damage or wear. If damage is found, cease use immediately and consult a professional.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Use only with SIG Sauer P Series pistols chambered in 9mm Luger / .357 SIG, or .40 S&W / .45 ACP as specified.
- Do not attempt to modify or alter the night sights in any way.
- Ensure that the sights are properly aligned before using the firearm.
- Avoid exposing the night sights to extreme temperatures or harsh chemicals that could damage the Tritium vial or sight material.
- If you experience any difficulty in sighting or see any unusual behavior from the sights, discontinue use and seek professional assistance.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the factory sights using appropriate tools.
- Align the Perfect Dot Tritium Night Sights with the mounting holes on your SIG Sauer P Series pistol.
- Secure the sights in place according to the manufacturer's specifications.
- Check alignment and functionality before using the firearm.

2. Usage:

- Familiarize yourself with the sight picture. The ultrabright front sight is designed to draw your attention for quick target acquisition.
- Practice using the sights in both lowlight and daylight conditions to understand their performance.
- Maintain focus on the front sight while aiming to improve accuracy.

Disposal Instructions

- Dispose of any damaged or nonfunctional night sights in accordance with local regulations.
- Do not dispose of Tritium vials in regular waste. Consult local hazardous waste disposal guidelines for proper disposal methods.

Contact Information for Further Support

For any safety inquiries, product support, or further information, please refer to the contact details provided with your product packaging or visit the manufacturer's website.

By following these guidelines and precautions, you can enjoy the enhanced visibility and performance of your Perfect Dot Tritium Night Sights while ensuring safety for yourself and others. Thank you for your attention to these important safety instructions.
