Set Up the Perfect Sight Configuration for Your S&W Pistol

PERFECT DOT TRITIUM NIGHT SIGHTS FOR SMITH & WESSON® The Tritium front dots on Night Fision's Perfect Dot night sights for Smith & Wesson M&P® pistols are 30% than standard dots. That translates to 30% BRIGHTER front sights! Contrasted against the plain black rear sight, that bright front dot encourages a fast, instinctive "Front Sight Focus" that helps you keep your eyes on the target. The Tritium insert isn't surrounded by the typical painted-on ring, but rather one made of a daylight fluorescing material that produces optimum visibility in daylight. The result is what the Night Fision folks have dubbed the "Perfect Dot". Provides maximum visibility in both nighttime AND daylight conditions, so when the pressure is on, you'll locate your M&P's sights quickly - and get them on target fast. Features Robust machined 4140 steel sight bodies - far stronger than the factory plastic Matte black Nitride finish - excellent wear- and corrosion-resistance Tritium vial has extra protection from knocks & dings Sold as front/rear pairs only Night Fision Perfect Dot night sights for Smith & Wesson® pistols are available in two models: one for 9mm/.40 S&W chambered M&P, M&P M2.0, SD9 VE and SD40 VE pistols; the other model fits the M&P Shield in 9mm/.40/.45 ACP. Features a notch on the plain black rear sight, with a choice Orange Tritium front dot.

Safety Instruction Guide for Perfect Dot Tritium Night Sights for Smith & Wesson

Introduction

Thank you for choosing the Perfect Dot Tritium Night Sights for your Smith & Wesson firearm. This guide provides essential safety information, installation instructions, and general care tips. Please read this guide thoroughly to ensure safe and effective use of your night sights.

General Safety Guidelines

- Ensure that your firearm is unloaded before installing or handling the night sights.
- Always follow the manufacturer's instructions for your specific firearm model.
- Use the night sights only for their intended purpose; do not modify them.
- Store your night sights in a safe, dry place when not in use.
- Be aware of your surroundings and ensure that you are in a safe environment when handling your firearm.

Specific Safety Precautions for Use

- The Tritium inserts are designed for optimal visibility in lowlight conditions. However, they should not be relied upon as the sole means of aiming.
- Avoid exposing the night sights to extreme temperatures or harsh chemicals, as this may damage the Tritium vial.
- Regularly check the sights for any signs of damage or wear. If damaged, discontinue use and replace them immediately.
- Keep the sights clean and free from debris to ensure proper functioning.

Instructions for Installation and Usage

1. Installation:

- Ensure your firearm is completely unloaded.
- Using the appropriate tools, carefully remove the existing sights from your firearm.
- Align the new Perfect Dot Tritium Night Sights with the mounting holes on your firearm.
- Secure the sights according to the manufacturer's specifications.
- Doublecheck that the sights are firmly installed and properly aligned.

2. Usage:

- When aiming, focus on the bright front sight dot while keeping both eyes open for better situational awareness.
- Practice regularly in various lighting conditions to become familiar with the sight picture.
- Maintain a proper grip and stance to enhance accuracy and control when using your firearm.

Disposal Instructions

- Dispose of any damaged or worn night sights in accordance with local regulations.
- Do not throw away Tritium vials in regular trash. Contact local waste management authorities for guidance on safe disposal.

Contact Information for Further Support

For any questions or concerns regarding the Perfect Dot Tritium Night Sights, please refer to the manufacturer's contact information provided with your purchase. You can also check for recall updates on the EU's Safety Gate platform.

Conclusion

Safety is paramount when using firearm accessories. By following the guidelines outlined in this document, you can ensure a safe and enjoyable experience with your Perfect Dot Tritium Night Sights. Always prioritize safety and responsible handling of your firearm.
