Set Up the Perfect Sight Configuration for Your S&W Pistol

PERFECT DOT TRITIUM NIGHT SIGHTS FOR SMITH & WESSON® The Tritium front dots on Night Fision's Perfect Dot night sights for Smith & Wesson M&P® pistols are 30% than standard dots. That translates to 30% BRIGHTER front sights! Contrasted against the plain black rear sight, that bright front dot encourages a fast, instinctive "Front Sight Focus" that helps you keep your eyes on the target. The Tritium insert isn't surrounded by the typical painted-on ring, but rather one made of a daylight fluorescing material that produces optimum visibility in daylight. The result is what the Night Fision folks have dubbed the "Perfect Dot". Provides maximum visibility in both nighttime AND daylight conditions, so when the pressure is on, you'll locate your M&P's sights quickly - and get them on target fast. Features Robust machined 4140 steel sight bodies - far stronger than the factory plastic Matte black Nitride finish - excellent wear- and corrosion-resistance Tritium vial has extra protection from knocks & dings Sold as front/rear pairs only Night Fision Perfect Dot night sights for Smith & Wesson® pistols are available in two models: one for 9mm/.40 S&W chambered M&P, M&P M2.0, SD9 VE and SD40 VE pistols; the other model fits the M&P Shield in 9mm/.40/.45 ACP. Features a notch on the plain black rear sight, with a choice Orange Tritium front dot.

Safety Instruction Guide for PERFECT DOT TRITIUM NIGHT SIGHTS FOR SMITH & WESSON

Introduction

Thank you for choosing the Perfect Dot Tritium Night Sights for your Smith & Wesson firearm. This guide provides essential safety instructions and guidelines to ensure the safe use and installation of your night sights. Please read this document carefully to understand how to use this product safely and effectively.

General Safety Guidelines

- Ensure the night sights are installed by a qualified gunsmith or follow the installation instructions carefully to avoid any potential hazards.
- Always handle firearms with care and follow the basic safety rules for firearm handling.
- Store the night sights in a safe place, away from children and unauthorized users.
- Regularly check the condition of the night sights for any signs of damage or wear.
- If you notice any issues with the night sights, discontinue use immediately and consult a professional.

Specific Safety Precautions for Use

- Do not attempt to modify or alter the night sights in any way.
- Use only with compatible Smith & Wesson models: M&P, SD9, SD40, M&P M2.0.
- Ensure that the firearm is unloaded before installing or inspecting the night sights.
- Be aware that Tritium is a radioactive material; however, it is contained within the sight and poses no risk if the sight is intact.
- If the Tritium vial is damaged, do not handle it directly. Contact a qualified professional for disposal.

Instructions for Installation and Usage

1. Installation:

- Ensure your firearm is unloaded.
- Using the appropriate tools, carefully remove the existing sights from your Smith & Wesson firearm.
- Align the Perfect Dot Tritium Night Sights with the sight dovetails.
- Securely install the sights using the provided screws, ensuring they are tight but not overtorqued.
- Verify alignment by checking the sight picture before use.

2. Usage:

- When aiming, focus on the bright front dot for improved target acquisition.
- Practice with the sights in both lowlight and daylight conditions to become familiar with their capabilities.
- Regularly clean the sights to maintain optimal visibility and performance.

Disposal Instructions

- If the night sights are damaged or no longer in use, dispose of them in accordance with local regulations.
- Do not throw away the Tritium vial in regular waste. Contact a waste disposal service that can handle radioactive materials for proper disposal.

Contact Information for Further Support

For any questions or concerns regarding the use of your Perfect Dot Tritium Night Sights, please consult a qualified gunsmith or the manufacturer's customer service.

Conclusion

By following these safety instructions and guidelines, you can ensure the safe and effective use of your Perfect Dot Tritium Night Sights for Smith & Wesson firearms. Always prioritize safety and seek professional assistance if you are unsure about any aspect of the installation or usage. Thank you for choosing Night Vision.
