Set Up the Perfect Sight Configuration for Your S&W Pistol

PERFECT DOT TRITIUM NIGHT SIGHTS FOR SMITH & WESSON® The Tritium front dots on Night Fision's Perfect Dot night sights for Smith & Wesson M&P® pistols are 30% than standard dots. That translates to 30% BRIGHTER front sights! Contrasted against the plain black rear sight, that bright front dot encourages a fast, instinctive "Front Sight Focus" that helps you keep your eyes on the target. The Tritium insert isn't surrounded by the typical painted-on ring, but rather one made of a daylight fluorescing material that produces optimum visibility in daylight. The result is what the Night Fision folks have dubbed the "Perfect Dot". Provides maximum visibility in both nighttime AND daylight conditions, so when the pressure is on, you'll locate your M&P's sights quickly - and get them on target fast. Features Robust machined 4140 steel sight bodies - far stronger than the factory plastic Matte black Nitride finish - excellent wear- and corrosion-resistance Tritium vial has extra protection from knocks & dings Sold as front/rear pairs only Night Fision Perfect Dot night sights for Smith & Wesson® pistols are available in two models: one for 9mm/.40 S&W chambered M&P, M&P M2.0, SD9 VE and SD40 VE pistols; the other model fits the M&P Shield in 9mm/.40/.45 ACP. Features a notch on the plain black rear sight, with a choice Orange Tritium front dot.

Safety Instruction Guide for Perfect Dot Tritium Night Sights

Introduction

Thank you for choosing the Perfect Dot Tritium Night Sights for your Smith & Wesson M&P Shield. This guide provides essential safety instructions to ensure the proper use and maintenance of your night sights. Please read this guide carefully to ensure safe handling and optimal performance.

General Safety Guidelines

- Ensure that the night sights are compatible with your specific model of Smith & Wesson firearm.
- Always handle firearms safely and responsibly. Follow all local laws and regulations regarding firearm usage.
- Inspect the night sights regularly for any signs of damage or wear.
- Keep the night sights and firearm out of reach of children and unauthorized users.
- Report any unsafe products or incidents to the proper authorities immediately.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Avoid using the night sights in conditions where visibility is significantly impaired, such as extreme fog or heavy rain.
- Do not attempt to modify or disassemble the night sights. This could lead to improper function or injury.
- Ensure that the firearm is unloaded before installing or inspecting the night sights.
- Use caution when cleaning your firearm to avoid damaging the night sights.
- Seek immediate assistance if you notice any unusual behavior or performance from the night sights.

Instructions for Installation and Usage

1. Installation

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing sights from your Smith & Wesson M&P Shield as per the manufacturer's instructions.
- Align the Perfect Dot Tritium Night Sights with the sight dovetails on your firearm.
- Securely fasten the sights using the appropriate tools, ensuring they are firmly in place.

2. Usage

- When aiming, focus on the bright front dot of the night sight. This helps maintain a clear view of the target.
- Practice regularly to become familiar with the sight picture and improve accuracy.
- In lowlight conditions, the Tritium insert will glow, providing enhanced visibility.

Disposal Instructions

- Dispose of any damaged or worn night sights in accordance with local regulations.
- Do not throw night sights in regular household waste. Contact your local waste management authority for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding your Perfect Dot Tritium Night Sights, please refer to the product documentation or contact your retailer for assistance.

Thank you for your attention to these safety guidelines. Enjoy your shooting experience with the Perfect Dot Tritium Night Sights!
