

PERFECT DOT TRITIUM NIGHT SIGHTS FOR SPRINGFIELD - NIGHT FISION XD, XDM, XD MOD 2 ORANGE FRONT & BLACK SQUARE NOTCH REAR

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

Strong, Easy-To-Acquire & 30% Brighter Than Standard Night Sights

Night Fusion's Perfect Dot night sights for Springfield XD pistols come in two models: One model fits XD®, XD(M)®, and XD® Mod 2™ pistols. The other fits the XD-S™, XD-E™, 9mm Hellcat™ (Excludes 9mm Hellcat OSP™). Like all night sights, Perfect Dots use self-illuminating Tritium to get the "always on" glow with a difference: PDs have 30% more Tritium, so they are brighter than other night sights. The Tritium insert isn't surrounded by a painted-on ring, but rather one made of a daylight fluorescing material that produces optimum visibility in daylight. The result is what the Night Fision folks have dubbed the "Perfect Dot". The Perfect Dot provides maximum visibility in both nighttime AND daylight conditions, so when the pressure is on, you'll locate your Springfield XD's sights more quickly and get them on target fast. The bright front sight contrasts well with the rear sight, encouraging fast, instinctive "Front Sight Focus" to keep your eyes on the target. Rugged machined 4140 STEEL housings (not plastic!) Matte black Nitride finish - excellent wear- and corrosion-resistance Tritium vial has extra protection from knocks & dings Variety of front dot colors & rear notch configurations to choose from (see below) Sold as front/rear pairs only Night Fision's Perfect Dot night sights for Springfield XD pistols come in two models: One model fits XD®, XD(M)®, and XD® Mod 2™ pistols. The other fits the XD-S™ and XD-E™. Options include a choice of Square or U-shaped rear notch on the plain black rear sight, with a choice of Orange or Yellow outline around the Tritium front dot. "Clear" rear sight has a Tritium insert on each side of the rear notch; the absence of fluorescing surrounds ensures your eyes are still drawn to the front sight first. With so many options available, you can fit your Smith with a night sight configuration that's perfect for you - just another reason why they're called "Perfect Dot" sights!

Safety Instruction Guide for Perfect Dot Tritium Night Sights for Springfield

Introduction

Thank you for choosing the Perfect Dot Tritium Night Sights for your Springfield XD, XDM, or XD Mod 2. This guide provides essential safety information and instructions to ensure the proper use and installation of your night sights. Please read this guide carefully before use to ensure your safety and the safety of others.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the night sights by following all instructions provided in this guide.
- **Enhanced Recalls:** In the unlikely event of a recall, you will be notified with standardized recall notices and offered free remedies for any dangerous products.
- **Online Shopping:** If purchased online, ensure that the seller complies with safety requirements equivalent to those of physical stores.
- **Special Consumer Focus:** Extra precautions should be taken if the product is used by children or vulnerable individuals.
- **EU Contact Point:** For any safety inquiries, refer to the EU-based contact point provided by the manufacturer.
- **Rapid Alerts:** Stay informed about any updates on unsafe products through the EU Safety Gate system.

Specific Safety Precautions for Use

- **Avoid Impact:** Do not drop or subject the night sights to heavy impacts, as this may damage the Tritium vials.
- **Check for Damage:** Before installation, inspect the night sights for any visible damage or defects.
- **Proper Installation:** Follow the installation instructions carefully to avoid misalignment or improper fitting.
- **Keep Out of Reach of Children:** Ensure that the night sights are stored in a safe place, out of reach of children and unauthorized users.
- **Use in Appropriate Conditions:** The night sights are designed for use in low light and daylight conditions. Avoid using them in situations that may impair visibility or safety.
- **Regular Maintenance:** Periodically check the sights for wear and tear to ensure they remain functional and safe to use.

Instructions for Installation and Usage

1. Installation:

- Ensure that your firearm is unloaded and pointed in a safe direction before beginning installation.
- Remove the existing sights from your Springfield XD, XDM, or XD Mod 2 using the appropriate tools.
- Align the Perfect Dot Tritium Night Sights with the mounting points on your firearm.
- Securely fasten the sights in place, ensuring they are properly aligned for optimal accuracy.
- Verify that the sights are stable and do not move when gently shaken.

2. Usage:

- Use the front sight to establish focus on the target.
- The bright orange front sight should contrast well against the black square notch rear sight.
- Practice using the sights in various lighting conditions to become familiar with their performance.
- In low light conditions, rely on the self-illuminating Tritium for visibility.

- Regularly practice to maintain proficiency with your firearm and sights.

Disposal Instructions

- **Safe Disposal:** When disposing of the night sights, follow local regulations for hazardous materials, as Tritium is a radioactive substance.
- **Contact Local Waste Management:** Consult with your local waste management authority for guidelines on the proper disposal of Tritium-containing products.
- **Do Not Dispose in Regular Trash:** Avoid throwing the night sights in regular household waste to prevent environmental contamination.

Contact Information for Further Support

For any questions or concerns regarding the Perfect Dot Tritium Night Sights, please refer to the contact information provided by the manufacturer. Ensure you have your product details ready when seeking assistance.

By following these guidelines, you can ensure the safe and effective use of your Perfect Dot Tritium Night Sights. Thank you for prioritizing safety and responsible usage.
