

# **EIDOLON HOLSTERS AGENCY KIT FOR GLOCK® - RAVEN CONCEALMENT SYSTEMS G17 EIDOLON AGENCY KIT TALL SHIELD BLACK**

[Home](#)

The Raven Concealment Systems Eidolon Agency (Ampi) Kit is designed to allow government purchasers a simple, single-SKU solution for equipping large numbers of people. This package contains an ambidextrous holster shell along with every accessory and belt-attachment available. This eliminates the need to guess how many left-handed holsters might be needed for a large purchase, while also ensuring that every end-user gets the accessories best-suited to their build and carry-position. This kit is also a tremendous value, since its total price represents a nearly 15% savings compared to purchasing the accessories ala carte. Like the other Eidolon Kits, the Agency (Ampi) Kit is a tuckable, versatile, and comprehensive IWB/AIWB holster package that can be used with one or both belt attachments and give you hundreds of potential configuration options. The Eidolon is the culmination of over three years of design and development. It is designed to be the most refined and functional inside-the-waistband holster on the market. At the core of the Eidolon is the holster shell. The shell is precisely fitted to the weapon on the inside and is smooth on the outside to work in conjunction with the body, belt, and clothing -in nearly any carry position- to maximize comfort and concealment. At the same time, the shell provides attachment points for a host of accessories to allow the user to tailor the holster for their specific carry needs. The holster shells feature an innovative, adjustable retention feature that isolates the tension solely on the front of the trigger guard. This provides for an extremely clean "feel" when drawing and holstering - unlike other companies' adjustable retention holsters which simply compress the holster body along the entire trigger guard and/or frame, resulting in a mushy feel as the pistol drags against the inside of the holster. All Eidolon holster shells are fully compatible with most extended controls, factory and after-market sights of any height (including suppressor sights), any type of RDS mounted behind the ejection port, and most extended/threaded barrels. The Agency (Ampi) Kit includes:

One ambidextrous holster shell of your specification  
One pair of 1.5" overhooks  
One pair of 1.75" overhooks  
One pair of Tuckable Soft Loops  
One Tall Spacer for mounting the belt attachment below the trigger guard  
One set of Belt Claws  
Two Holster Wedges, one for right-hand and one for left-hand configurations  
Supplemental hardware kit  
Full instruction manual  
One set of eight hole extension wings  
One set of ten hole extension wings

The Glock 19/Universal model has a pass-through open bottom design and will fit any 3rd or 4th Gen. Glock 9mm/.40cal pistol. The holster shell itself is equal in length to a Glock 19 pistol. It is available in short or long body shield configurations. The Glock 17 model has a closed bottom design equal in length to a Glock 17 pistol, but will fit any Glock 26/27/19/23/17/22 3rd or 4th Gen. It is available in short or long body shield configurations.

Included Accessories

Tuckable Overhook Set: Fits 1.5" or 1.75" belts. Can be used as a pair or individually mounted to the holster shell. Overhooks offer two ride height positions 5/8" up or down, and approximately 15 degrees of cant adjustment, forward or back.

Tuckable Soft Loop Set: Can be used as a pair or individually mounted to the holster shell. The polymer struts provide two ride height positions 5/8" up or down and approximately 15 degrees of cant adjustment forward or back. Soft Loops are adjustable, and will fit 1.25", 1.5", and 1.75" belts. The soft loop itself mounts in a slot to allow infinite ride height adjustment within the slot

envelope. The loop itself can be rotated to allow infinite cant adjustments forward and back. Once tightened down, little nibs in the strut face lock the loop in place and prevent movement. Tall Spacer Block: Used to mount the Overhook below the trigger guard to allow the Overhook to clear the holster shell and adjust for cant. Belt Claw Set: This accessory sets the Eidolon apart from all other AIWB holsters on the market. The Belt Claw mounts to the side of the trigger guard area and juts out toward the belt line. As the belt is tightened, it pushes against the Claw and levers the grip of the weapon into the body. The shape of the Claw is designed to blend into the lines of the holster shell for comfort. It also works in conjunction with the angled sight-channel area to allow the holster to conform to the waistline and virtually disappear under cover garments. The serrations on the face of the Claw are meant to "grab" the pants material to minimize holster movement, but are blunted to prevent damage to clothing. Belt Claws come in sets and can be mounted angled up or down to best make contact with the belt line in any cant or configuration for both right and left handed shooters. Holster Wedge: Designed to mount to the inside face of the holster shell toward the muzzle end, the Wedge will help lever the top and grip of the weapon into the body and maximize concealment especially in an AIWB configuration. The Eidolon Holster Wedge is optional, and can be removed if not needed. It is made from a special polymer which is soft enough for all day comfort, yet durable to last the lifetime of the holster.

## Attributes

- Name: [RAVEN CONCEALMENT SYSTEMS G17 EIDOLON AGENCY KIT TALL SHIELD BLACK](#)
- Manufacturer: [RAVEN CONCEALMENT SYSTEMS](#)
- Product no.: 100030794

# Safety Instruction Guide for EIDOLON HOLSTERS AGENCY KIT FOR GLOCK® RAVEN CONCEALMENT SYSTEMS G17

## Introduction

Thank you for choosing the EIDOLON HOLSTERS AGENCY KIT FOR GLOCK® RAVEN CONCEALMENT SYSTEMS G17. This guide provides essential safety information to ensure the safe use of the product. Please read this manual carefully before using the holster kit to understand its features, safety precautions, and proper usage.

## General Safety Guidelines

- Ensure that the holster is compatible with your firearm model before use.
- Always treat your firearm as if it is loaded.
- Store the holster and firearm in a secure location away from children and unauthorized users.
- Regularly inspect the holster and accessories for wear and tear. Replace any damaged components immediately.
- Do not modify the holster or its accessories in any way that could affect its performance or safety.
- Be aware of your surroundings and ensure that you have a clear understanding of safe firearm handling practices.

## Specific Safety Precautions for Use

- Always ensure your firearm is unloaded before inserting it into the holster.
- When drawing or reholstering your firearm, maintain a proper grip and keep your finger off the trigger until you are ready to shoot.
- Avoid wearing loose clothing that may interfere with the holster or cause accidental discharge.
- Be cautious when adjusting the holster. Make sure the firearm is not in the holster during adjustments.
- Do not engage in physical activities that may cause the holster to shift or become dislodged.
- Ensure that the holster is properly secured to your belt or waistband before carrying your firearm.

## Instructions for Installation and Usage

### Installation

1. **Select the Appropriate Holster Shell:** Choose the holster shell that corresponds with your Glock model.
2. **Attach Accessories:** Use the provided hardware to attach the accessories such as the overhooks, soft loops, and belt claws as per your preference.
3. **Adjust Ride Height and Cant:** Adjust the ride height and cant of the holster using the overhooks or soft loops to suit your comfort.
4. **Secure the Holster:** Make sure all components are tightly secured before use.

### Usage

- **Inserting the Firearm:**
  1. Ensure the firearm is unloaded.
  2. Carefully slide the firearm into the holster shell until it is fully seated.
- **Drawing the Firearm:**
  1. Grip the firearm firmly.
  2. Pull it straight up from the holster, keeping your finger off the trigger until ready to fire.
- **Reholstering:**
  1. Ensure the firearm is pointed in a safe direction.

2. Insert the firearm back into the holster smoothly and deliberately.

## **Disposal Instructions**

- Dispose of the holster and any accessories in accordance with local regulations.
- Do not incinerate or recycle the holster if it contains any components that may be hazardous.
- If the holster is damaged beyond use, ensure it is disposed of in a manner that prevents accidental use.

## **Contact Information for Further Support**

For any inquiries regarding the product or safety concerns, please reach out to the manufacturer or authorized distributor for assistance. Always keep the product manual handy for reference.

Thank you for prioritizing safety. Proper use of the EIDOLON HOLSTERS AGENCY KIT will enhance your experience while ensuring responsible firearm handling.
