The GSR-03 adds subtle, but tractable serrated wings at the slide's end, to guarantee a positive cycling of ammunition into the weapon. No matter how adverse the conditions, or how tough the fight, you can always rely on the GSR-03 to keep your weapon up and running. Even if you're down to one hand, cycling the slide against your belt, holster or heel is quick and positive. Small or arthritic hands will find it much easier to use than the traditional 'slingshot' method. The GSR-03 is big enough to offer advantage, yet small enough to be unnoticeable in concealed carry holsters. The GSR-03 is a top quality drop-in part, requiring no other modifications to the firearm. Injection molded of glass-reinforced nylon with stainless steel reinforcement just like the OEM part, it replaces the striker retention plate in minutes. Once in place, the GSR-03 offers easy, effortless and positive slide cycling under any condition. Tough, stainless steel & injection molded glass reinforced nylon construction

# Vickers Tactical Slide Racker Safety Instruction Guide

## Introduction

Thank you for choosing the Vickers Tactical Slide Racker for your Glock® 9/40 Gen 5. This product is designed to enhance the ease of cycling the slide of your firearm, ensuring reliable operation under various conditions. This safety instruction guide provides essential information on safe usage, installation, and maintenance in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the firearm is unloaded before installation or use of the Slide Racker.
- Always follow the manufacturer's instructions for your firearm.
- Keep the Slide Racker and firearm out of reach of children and unauthorized users.
- Regularly inspect the Slide Racker for signs of wear or damage.
- Report any incidents or unsafe conditions to the appropriate authorities.
- Stay informed about product recalls or safety updates through the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Always handle your firearm with care and assume it is loaded.
- Use the Slide Racker only with compatible Glock® models as specified.
- Do not use the Slide Racker if you notice any defects or if it does not fit securely.
- Avoid using excessive force when cycling the slide to prevent damage to the firearm or the Slide Racker.
- When using the Slide Racker, ensure that your hands are dry and free from oils or contaminants.
- If you have small or arthritic hands, practice using the Slide Racker in a safe environment to become familiar with its operation.

## Instructions for Installation and Usage

### Installation Steps

1. **Ensure Safety:** Confirm that your firearm is unloaded and pointed in a safe direction.
2. **Remove the Striker Retention Plate:** Carefully remove the existing striker retention plate from your Glock®.
3. **Insert the GSR03:** Place the Vickers Tactical Slide Racker (GSR03) in the same position as the striker retention plate.
4. **Secure the Part:** Ensure that the Slide Racker is seated properly and secure.
5. **Check Functionality:** Cycle the slide to ensure that the Slide Racker functions correctly with your firearm.

### Usage Instructions

- To cycle the slide using the Slide Racker, position your hand or belt against the racker and push forward.
- The design allows for easy operation with one hand, making it suitable for various situations.
- Practice using the Slide Racker in a safe environment until you are comfortable with its operation.

## Disposal Instructions

- Dispose of the Slide Racker in accordance with local regulations for plastic and metal waste.
- Do not dispose of the product in regular household waste if it is damaged or defective.
- Check with local authorities for proper disposal methods to minimize environmental impact.
