# Safety Instruction Guide for CUSTOM GRADE HANDGUN 3DIE SETS 357 SIG 3DIE SET

## Introduction

Thank you for choosing the Hornady Custom Grade 3Die Set for your reloading needs. This guide provides important safety information and instructions to ensure safe and effective use of the product. Please read this guide carefully before using the die set.

## General Safety Guidelines

- Ensure that you are familiar with the reloading process and best practices.
- Always wear appropriate safety gear, including safety glasses and hearing protection.
- Keep the work area clean and organized to prevent accidents.
- Store the die set and all reloading components in a safe and secure location, away from children and unauthorized users.
- Regularly inspect the die set for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding the reloading of ammunition.

## Specific Safety Precautions for Use

- Do not exceed the recommended load limits when reloading ammunition.
- Always use the appropriate components (brass, primers, powder, and bullets) specified for the 357 SIG cartridge.
- Avoid distractions while reloading to maintain focus and accuracy.
- Do not use damaged or defective components in the reloading process.
- Be aware of the potential hazards associated with handling gunpowder and primers, which are flammable and sensitive to static electricity.
- Ensure that the workspace is wellventilated when working with powders and primers.

## Instructions for Installation and Usage

### 1. Setup:

- Ensure that your reloading press is securely mounted and stable.
- Gather all necessary components, including the die set, brass cases, primers, powder, and bullets.

### 2. Installing the Dies:

- Start with the full length sizer die. Screw it into the press until it is snug, but do not overtighten.
- Next, install the expander die in the same manner, ensuring proper alignment.
- Finally, install the bullet seater die, adjusting it to the desired bullet seating depth.

### 3. Reloading Process:

- Begin by resizing the brass cases using the full length sizer die.
- Expand the neck of the case with the expander die.
- Add the appropriate amount of powder to each case using a reliable powder measure.
- Insert the primer into the case using the appropriate tool.
- Seat the bullet using the bullet seater die, ensuring a proper crimp is applied.

### 4. Final Checks:

- Inspect each round carefully for any irregularities.
- Store completed ammunition in a safe and secure manner, clearly labeled with the load information.

## **Disposal Instructions**

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Do not dispose of gunpowder or primers in regular household waste. Contact local authorities for proper disposal methods.
- Recycle brass cases whenever possible to minimize environmental impact.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the Hornady Custom Grade 3Die Set, please refer to the manufacturer's website or contact their customer support for assistance.

**Important Note:** Always stay informed about product recalls and safety updates. You can report any unsafe products or incidents to the relevant authorities and check for updates on the EU's Safety Gate platform. Your safety is our priority.
