CUSTOM GRADE HANDGUN 3DIE SET SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the CUSTOM GRADE HANDGUN 3DIE SET for your reloading needs. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your reloading equipment. Please read this document carefully before use.

General Safety Guidelines

- Always wear appropriate safety gear, including safety glasses and hearing protection, when using reloading equipment.
- Keep all reloading equipment out of reach of children and unauthorized personnel.
- Use the product only for its intended purpose. This die set is specifically designed for reloading 9x18mm Makarov cartridges.
- Ensure your workspace is clean, organized, and welllit to minimize the risk of accidents.
- Store all components in a secure location to prevent unauthorized access or misuse.
- Regularly inspect your equipment for wear and tear. Replace any damaged components immediately.

Specific Safety Precautions for Use

- Read all manufacturer instructions and guidelines before beginning the reloading process.
- Do not exceed recommended load specifications for the cartridges you are reloading.
- Avoid using damaged or wornout dies, as this may lead to malfunction or accidents.
- Always check that the die is securely fastened in the reloading press before use.
- Pay attention to the condition of the reloaded ammunition. Discard any rounds that show signs of damage or irregularities.
- Never mix different types of powders or primers when reloading.
- Keep flammable materials away from your reloading area.

Instructions for Installation and Usage

1. Installation of the Die Set:

- Ensure your reloading press is securely mounted and stable.
- Insert the full length sizer die into the press and tighten it according to the manufacturer's instructions.
- Attach the expander die and bullet seater die in the same manner, ensuring all dies are securely tightened.

2. Reloading Process:

- Start by inspecting your brass cases for cleanliness and damage.
- Resize the brass using the full length sizer die. This will ensure proper chambering.
- Use the expander die to prepare the case mouth for bullet seating.
- Insert the bullet into the case and use the bullet seater die to seat it to the appropriate depth.
- Finally, crimp the bullet using the builtin crimp feature of the bullet seater die.

3. PostReloading:

- Inspect the completed ammunition for proper seating and crimping.
- Store reloaded ammunition in a cool, dry place, clearly labeled with the caliber and load

specifications.

Disposal Instructions

- Dispose of any damaged or unusable reloading components in accordance with local regulations.
- Do not throw away live ammunition. Contact local authorities for proper disposal methods.
- Always recycle brass cases when possible, following local recycling guidelines.

Contact Information for Further Support

For any questions or safety concerns regarding the CUSTOM GRADE HANDGUN 3DIE SET, please refer to the manufacturer's contact information provided with your product.

Conclusion

Following these safety guidelines will help ensure a safe and successful reloading experience. Always prioritize safety and remain informed about best practices in reloading. Thank you for choosing our product, and happy reloading!
