

# MATCH GRADE BUSHING - 0.288" MATCH GRADE BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Hornady match Grade Dies feature interchangeable neck sizing bushings that are self centering. The bushings allow the user to size the case neck to the bullet tension you desire. This eliminates the chance of over-sizing your case necks and overworking the brass. Bushings are available in .002 inch increments. The Match Grade Full Length Die will size the case body, bump the shoulder and size the case neck with the selected bushing. The Match Grade Neck Die sizes the neck with the installed bushing and bumps the shoulder only (no body sizing). Both versions feature a self centering decap spindle with an o-ring spindle tensioner, and the elliptical expander ball with headed decap pin - the same pin used in the Custom Grade Dies. These bushing sizer dies have some unique features and are very well made and finished.

## Attributes

- Name: [0.288" MATCH GRADE BUSHING](#)
- Manufacturer: [HORNADY](#)
- Product no.: 100031845
- Mfr. No.: 594288

# MATCH GRADE BUSHING Safety Instructions

## Introduction

Thank you for choosing the Hornady Match Grade Bushing. This product is designed to enhance your reloading experience by allowing precise neck sizing of your cases. To ensure safe and effective use, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always handle the Match Grade Bushing with care to avoid injury.
- Ensure that you are using the bushing with compatible Hornady equipment.
- Keep the bushing out of reach of children and unauthorized users.
- Inspect the bushing for damage before each use. Do not use if damaged.
- Store the bushing in a safe, dry place when not in use.

## Specific Safety Precautions for Use

- Use protective eyewear when reloading to prevent any debris from entering your eyes.
- Wear gloves to protect your hands from sharp edges and potential contaminants.
- Ensure your workspace is clean and free from distractions while using the bushing.
- Follow the manufacturer's instructions for the specific die you are using in conjunction with the bushing.
- Do not exceed the recommended sizing limits to avoid damaging your cases or the bushing.
- Be aware of the potential for oversizing your case necks, which can lead to case failure.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Select the appropriate Match Grade Bushing based on your desired neck tension.
- Remove the existing bushing from your die if applicable.
- Insert the new bushing into the die, ensuring it is seated properly.
- Tighten the die according to the manufacturer's specifications.

### 2. Usage:

- Prepare your brass cases by cleaning and inspecting them.
- Set your reloading press to the correct height for the bushing being used.
- Place a brass case into the shell holder of your reloading press.
- Pull the handle to size the neck of the case with the installed bushing.
- Check the neck tension after sizing to ensure it meets your specifications.
- Repeat the process for additional cases as needed.

## Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Recycle materials where possible. Check local guidelines for recycling metal products.

## Contact Information for Further Support

For any safety inquiries or concerns regarding the Match Grade Bushing, please refer to the manufacturer's contact points provided with your product packaging or visit the manufacturer's website.

## Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with your Hornady Match Grade Bushing. Always prioritize safety and proper handling to enjoy the benefits of this precision tool.
