

# 6 CAVITY HANDGUN BULLET MOLDS - LEE PRECISION 6 CAVITY BULLET MOLD TL356-95-RF 35 CAL (0.356") 95GR FN

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

Machined Aluminum Mold Blocks. Hard Anodized Sprue Plate. Rust resistant aluminum blocks. Lee Precision does not recommend the use of any spray type mold release products in their bullet molds. The use of such products may result in a build-up of the release product in the bullet mold cavity, reducing the diameter of the bullets cast from the treated mold. Instead, Lee Precision recommends smoking the mold with a wooden match, beeswax candle or a butane lighter as described in their provided bullet mold instructions.

## Attributes

- Name: [LEE PRECISION 6 CAVITY BULLET MOLD TL356-95-RF 35 CAL \(0.356"\) 95GR FN](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100032148
- Mfr. No.: 90672
- Bullet Style: -
- Bullet Weight (Grains): 95
- Caliber: -
- Cavities: 6
- Diameter (in): 0.356
- Delivery weight: 0.544kg
- Shipping height: 51mm
- Shipping width: 102mm
- Shipping length: 381mm
- UPC: 734307906726

# Safety Instruction Guide for 6 Cavity Handgun Bullet Molds

## Introduction

Thank you for purchasing the 6 Cavity Handgun Bullet Molds by Lee Precision. This guide provides important safety instructions and usage recommendations to ensure your safety and the effective use of the product. Please read this guide carefully before using the bullet molds.

## General Safety Guidelines

- Always use the bullet molds in a wellventilated area.
- Keep the molds out of reach of children and pets.
- Inspect the molds for any damage before each use. Do not use if damaged.
- Follow all local regulations regarding the use of bullet molds and casting materials.
- Be aware of the risks associated with handling molten lead and ensure proper protective gear is worn.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Molten lead can cause severe burns.
  - Improper use of mold release products can lead to bullet defects.
- **Avoiding Hazards:**
  - Always wear heatresistant gloves and safety goggles when handling the molds.
  - Do not use spray type mold release products. Instead, smoke the mold as recommended.
  - Ensure that the molds are securely clamped to a stable surface during use.
- **Age Restrictions:**
  - This product is intended for adult use only. Keep out of reach of children.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure your work area is clean and free from hazards.
- Gather all necessary materials, including lead, a heat source, and protective gear.

### 2. Smoking the Mold:

- Light a wooden match or beeswax candle.
- Gently smoke the interior of the mold cavities to create a nonstick surface.
- Allow the mold to cool before using.

### 3. Melting Lead:

- Melt lead in a suitable melting pot according to the manufacturer's instructions.
- Use a thermometer to monitor the temperature of the lead.

### 4. Casting Bullets:

- Pour the molten lead into the mold cavities carefully, avoiding spills.
- Allow the lead to cool and solidify before removing the bullets from the mold.

### 5. PostUse Care:

- Clean the molds after each use according to the provided instructions.
- Store the molds in a dry place to prevent corrosion.

## **Disposal Instructions**

- Dispose of any lead scraps or defective bullets in accordance with local regulations regarding hazardous waste.
- Do not dispose of lead in regular household waste.

## **Contact Information for Further Support**

For any safety inquiries or additional support, please refer to the contact details provided by the manufacturer or visit their official website.

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your 6 Cavity Handgun Bullet Molds. Thank you for your attention to safety and enjoy your casting!
