

2 CAVITY PISTOL BULLET MOLDS - LEE PRECISION 38 CALIBER (0.358") 105GR SEMI-WADCUTTER MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

All molds for pistol calibers are double cavity to speed casting. All Lee mould blocks are made from aluminum because of the exceptional moulding qualities. The mould cavities are CNC machined for unmatched roundness and size control. Most bullets from Lee moulds can be used as cast without sizing. Handles and sprue plate are included.

Attributes

- Name: [LEE PRECISION 38 CALIBER \(0.358"\) 105GR SEMI-WADCUTTER MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100032150

Safety Instructions for 2 Cavity Pistol Bullet Molds Lee Precision 38 Caliber (0.358") 105gr SemiWadcutter Mold

Introduction

Thank you for choosing the Lee Precision 2 Cavity Pistol Bullet Mold. This product is designed for crafting highquality bullets for your handgun. To ensure your safety and the proper use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate safety gear, including eye protection and gloves, when using the mold.
- Keep the mold and casting area clean and free from clutter to prevent accidents.
- Store the mold in a dry place to avoid corrosion or damage.
- Be aware of the materials used for casting and ensure they are safe for use.
- Familiarize yourself with the local laws and regulations regarding bullet casting.

Specific Safety Precautions for Use

- Only use lead or lead alloys that are suitable for bullet casting.
- Avoid inhaling fumes produced during the melting and casting process.
- Do not leave molten lead unattended.
- Be cautious when handling hot materials to prevent burns.
- Ensure that children and pets are kept away from the casting area.
- Use proper ventilation in your workspace to minimize exposure to any harmful substances.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials, including the mold, lead alloy, melting pot, safety gear, and tools.
- Ensure that your workspace is wellventilated and free from distractions.

2. Setting Up the Mold:

- Place the mold on a stable, heatresistant surface.
- Ensure that the mold is clean and dry before use.
- Preheat the mold by placing it over the melting pot for a few minutes.

3. Melting the Lead:

- Fill the melting pot with the lead alloy and heat it to the appropriate temperature.
- Use a thermometer to monitor the temperature of the molten lead.

4. Casting Bullets:

- Carefully pour the molten lead into the mold cavities, ensuring not to overfill.
- Allow the bullets to cool and solidify before handling.
- Open the mold carefully and remove the cast bullets.

5. Cleaning and Maintenance:

- After use, clean the mold thoroughly to prevent lead buildup.
- Store the mold in a dry place to maintain its condition.

Disposal Instructions

- Dispose of any leftover lead or lead alloy in accordance with local regulations.
- Do not dispose of lead in regular trash; contact local waste management for proper disposal methods.
- Ensure that any waste materials are stored safely and securely until disposal.

Contact Information for Further Support

For any inquiries regarding safety or product support, please refer to the contact information provided with your product packaging or visit the manufacturer's website for assistance.

By following these safety instructions, you can ensure a safe and effective bullet casting experience with your Lee Precision 2 Cavity Pistol Bullet Mold. Thank you for your attention to safety.
