

## 2 CAVITY PISTOL BULLET MOLDS - LEE PRECISION 45 CALIBER (0.452") 252GR SEMI-WADCUTTER MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

All molds for pistol calibers are double cavity to speed casting. All Lee mould blocks are made from aluminum because of the exceptional moulding qualities. The mould cavities are CNC machined for unmatched roundness and size control. Most bullets from Lee moulds can be used as cast without sizing. Handles and sprue plate are included.

### Attributes

- Name: [LEE PRECISION 45 CALIBER \(0.452"\) 252GR SEMI-WADCUTTER MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100032159
- Mfr. No.: 90356
- Bullet Style: Semi-Wadcutter (SWC)
- Bullet Weight (Grains): 252
- Caliber: 45 Caliber
- Cavities: 2
- Diameter (in): 0.452
- Delivery weight: 0.408kg
- Shipping height: 51mm
- Shipping width: 76mm
- Shipping length: 279mm
- UPC: 734307903565

# Safety Instruction Guide for 2 Cavity Pistol Bullet Molds

## Introduction

Thank you for choosing the 2 Cavity Pistol Bullet Molds by Lee Precision. This guide provides essential safety instructions and information to ensure the safe use of your product. Please read this guide carefully before using the bullet molds.

## General Safety Guidelines

- Ensure that all safety precautions are followed during the use of this product.
- Always keep the molds out of reach of children and vulnerable individuals.
- Inspect the molds for any damage before each use. Do not use if damaged.
- Use the molds only for their intended purpose. Improper use may result in injury or damage.
- Follow all local laws and regulations regarding the use of bullet molds and ammunition.

## Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE), including safety glasses and heatresistant gloves, while using the molds.
- Be cautious of hot surfaces. The molds can become extremely hot during use, which may cause burns.
- Ensure that your workspace is wellventilated to avoid inhalation of any fumes produced during the casting process.
- Keep a fire extinguisher nearby when working with molten lead.
- Avoid using the molds in damp or wet areas to prevent electrical hazards.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary materials, including lead, a heat source, and personal protective equipment.
- Ensure that your workspace is clean and organized.

### 2. Heating the Molds:

- Preheat the molds on a heat source to ensure proper lead flow and minimize defects.
- Use caution when handling hot molds.

### 3. Casting Bullets:

- Pour molten lead into the mold cavities carefully, avoiding overfilling.
- Allow the lead to cool and solidify before attempting to open the molds.
- Use the sprue plate to remove excess lead after cooling.

### 4. Removing Bullets:

- Once the bullets have cooled, gently open the molds to release the bullets.
- Inspect each bullet for defects before use.

### 5. Cleaning and Maintenance:

- Clean the molds after each use to prevent buildup and maintain performance.
- Store the molds in a dry, cool place when not in use.

## **Disposal Instructions**

- Dispose of any waste materials, including excess lead and damaged molds, in accordance with local regulations.
- Do not dispose of lead materials in regular trash. Check with local authorities for proper disposal methods.

## **Contact Information for Further Support**

For safety inquiries or to report unsafe products, please refer to the EU Safety Gate platform or your local consumer safety authority.

Thank you for your attention to these safety guidelines. Your safety is our priority. Enjoy your casting experience with the 2 Cavity Pistol Bullet Molds by Lee Precision!
