

2 CAVITY PISTOL BULLET MOLDS - LEE PRECISION 40 CALIBER (0.401") 175GR SEMI-WAD CUTTER MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

All molds for pistol calibers are double cavity to speed casting. All Lee mould blocks are made from aluminum because of the exceptional moulding qualities. The mould cavities are CNC machined for unmatched roundness and size control. Most bullets from Lee moulds can be used as cast without sizing. Handles and sprue plate are included.

Attributes

- Name: [LEE PRECISION 40 CALIBER \(0.401"\) 175GR SEMI-WAD CUTTER MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100032165
- Mfr. No.: 90431
- Bullet Style: Semi-Wadcutter (SWC)
- Bullet Weight (Grains): 175
- Caliber: 10mm, 40 Caliber
- Cavities: 2
- Diameter (in): 0.401
- Delivery weight: 0.408kg
- Shipping height: 51mm
- Shipping width: 76mm
- Shipping length: 279mm
- UPC: 734307904319

Safety Instruction Guide for 2 Cavity Pistol Bullet Molds Lee Precision 40 Caliber (0.401") 175gr SemiWadcutter Mold

Introduction

Thank you for choosing the Lee Precision 2 Cavity Pistol Bullet Mold. This guide provides essential safety information and instructions to ensure the safe and effective use of this product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling molds and molten lead.
- Keep the working area clean and free of obstructions to prevent accidents.
- Ensure proper ventilation in the workspace to avoid inhaling fumes from heated materials.
- Store the mold in a safe place, out of reach of children and pets.
- Regularly inspect the mold for any signs of damage or wear. Do not use if damaged.

Specific Safety Precautions for Use

- **Heat Caution:** The mold will become very hot during use. Use tools with insulated handles to prevent burns.
- **Lead Handling:** Lead is a toxic substance. Avoid direct contact with lead and wash hands thoroughly after handling.
- **Casting Safety:** When casting, ensure that the lead is at the correct temperature to prevent splattering.
- **Avoid Overfilling:** Do not overfill the mold cavities to prevent lead spills and potential hazards.
- **Children and Pets:** Keep children and pets away from the casting area to prevent accidents.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials, including lead, a heat source, and safety equipment.
- Ensure that your workspace is clean and organized.

2. Using the Mold:

- Preheat the mold on a heat source to ensure proper lead flow.
- Pour molten lead into the mold cavities carefully, taking care not to spill.
- Allow the lead to cool and solidify before removing the bullets from the mold.
- Use appropriate tools to open the mold and extract the bullets.

3. PostUse Care:

- Clean the mold after use to prevent lead buildup and maintain performance.
- Store the mold in a dry place to prevent corrosion.

Disposal Instructions

- Dispose of any lead waste according to local regulations. Do not dispose of lead in regular trash.
- Ensure that any damaged parts of the mold are disposed of safely and in accordance with environmental guidelines.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please refer to the contact information provided on the product packaging or visit the official Lee Precision website.

Conclusion

Following these safety instructions will help ensure a safe and effective experience with your Lee Precision 2 Cavity Pistol Bullet Mold. Always prioritize safety and do not hesitate to seek further information if needed. Thank you for your attention to these important guidelines.
