

# REMINGTON 700 LONG ACTION IMPROVED SCOPE RAIL - AREA 419

## REMINGTON 700 LONG ACTION 20 MOA ARC TOP

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

### Quality Scope Rail for Your Remington 700

The Area 419 Remington 700 Long Action Improved Scope Rail is machined in house on a 4-axis HAAS VMC from 7075 Aluminum. Straight off the mill there is not a single sharp edge left, all corners are radiused and any necessary harsh corners are chamfered. Compatible with #6 and #8 screws, no modification necessary All mating areas are 1:1 surface machined to exact profile of the Remington action for a solid fit Machined to MIL-STD-1913 Ejection port cut blends seamlessly into action and gives plenty of room for top loading ADL style rifles Type III Hardcoat Black anodized (4) 6-48 and (4) 8-40 Torx T10 screws and wrench included All screws are the same length and sized to not interfere with barrel threads, no more guessing which screw goes where The Improved Scope Rail is available in two versions: Full Slotted and ARC Top. The Full Slotted is compatible with all picatinny scope mounts including Spuhr and MPA which have a recoil lug in the center of the mount. The ARC Top is an Area 419 original design, mainly for aesthetics just to set it apart (will not work with mounts like Spuhr or MPA).

### Attributes

- Name: [AREA 419 REMINGTON 700 LONG ACTION 20 MOA ARC TOP](#)

# Safety Instruction Guide for the REMINGTON 700 LONG ACTION IMPROVED SCOPE RAIL AREA 419

## Introduction

Thank you for choosing the Area 419 Remington 700 Long Action Improved Scope Rail. This guide provides important safety information, installation instructions, and usage guidelines to ensure your safety and the optimal performance of your product. Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Regularly inspect the scope rail for any signs of wear or damage.
- Do not exceed the recommended specifications for mounting equipment.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform to stay informed about product safety.

## Specific Safety Precautions for Use

- Always use the correct screws and tools provided with the product to avoid damage.
- Ensure that all screws are tightened to the manufacturer's specifications to prevent accidents during use.
- Avoid using the scope rail with incompatible mounts, specifically those not designed for the ARC Top version.
- Do not modify the scope rail in any way, as this may compromise safety and performance.
- Handle the product with care, avoiding any sharp edges during installation.

## Instructions for Installation and Usage

### Installation Instructions

1. **Prepare Your Workspace:** Ensure that you have a clean, dry, and welllit area to work in.
2. **Gather Tools:** You will need the included Torx T10 wrench and the appropriate screws (648 and 840).
3. **Align the Scope Rail:** Position the scope rail on the Remington 700 action, ensuring that it aligns correctly with the predrilled holes.
4. **Insert Screws:** Using the Torx T10 wrench, insert the screws into the holes. Make sure to use the correct size screws for each hole.
5. **Tighten Screws:** Carefully tighten each screw to ensure a secure fit without overtightening, which could damage the rail or action.
6. **Check Alignment:** After installation, check that the scope rail is level and securely attached to the action.

### Usage Instructions

- Once installed, mount your scope according to the scope manufacturer's instructions.
- Regularly check the tightness of the screws during routine maintenance of your firearm.
- Use the scope rail only with compatible scope mounts to ensure safety and functionality.

## Disposal Instructions

- Dispose of the product responsibly. Follow local regulations for recycling or disposing of aluminum materials.
- Do not dispose of the product in regular household waste.

- If the product is damaged beyond repair, contact your local waste management authority for guidance on proper disposal.

## **Contact Information for Further Support**

For any questions or concerns regarding the product, please refer to the manufacturer's website or contact their customer service department. Ensure that you have your product details ready for a more efficient response.

By following these guidelines, you can ensure safe use of the Area 419 Remington 700 Long Action Improved Scope Rail. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
