Best All-Around Bolt Knob for Your Precision Rifle

This bolt knob was designed by Area 419 to be the best all-around bolt knob for competition and general use. Its main feature is the finger groove which allows you to manipulate the bolt with just your pointer finger without searching for the ideal position each time. Made in the USA from 6061-T6 aluminum and anodized flat black. Defiance and Remington bolt knobs are threaded 5/16"-24. Remington knobs are 1-5/8" long to accommodate shorter bolt handles Bergara bolt knobs are threaded M6x1 Mausingfield bolt knobs are internally threaded 10-32. Will only work on Mausingfield and Nucleus Bolts. Your finger automatically catches in the groove to assure the fastest, smoothest bolt manipulation. There are two knurled surfaces located on either side of the groove to give a sure grip.

Safety Instructions for the 419 BOLT KNOB AREA

419 BERGARA B14 (M6X1) BOLT KNOB

Introduction

Thank you for choosing the 419 Bolt Knob designed by Area 419. This product is engineered for optimal performance in competition and general use. To ensure your safety and the longevity of the product, please read this safety instruction guide carefully before use.

General Safety Guidelines

- Ensure that the bolt knob is compatible with your firearm before installation.
- Always handle firearms with care, following all safety protocols.
- Keep the bolt knob and firearm out of reach of children and unauthorized users.
- Regularly inspect the bolt knob for wear or damage before each use.
- Report any unsafe conditions or accidents to the relevant authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Finger Placement:** Always use your pointer finger to manipulate the bolt knob, as designed. Avoid using excessive force.
- **Grip:** Utilize the knurled surfaces on either side of the groove for a secure grip, especially in adverse conditions.
- **Compatibility:** This bolt knob is specifically designed for Bergara B14 models and is not compatible with other brands without proper adaptation.
- **Threading:** Ensure the threading (M6x1) is matched correctly to avoid crossthreading or damage.
- **Installation:** Follow the installation instructions carefully to avoid improper fitting, which may lead to operational hazards.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools for installation, including a suitable wrench.

2. Installation:

- Remove the existing bolt knob if applicable.
- Align the new bolt knob with the bolt handle.
- Gently screw the bolt knob onto the bolt handle, ensuring the M6x1 threading is properly aligned.
- Tighten the knob securely, but do not overtighten as this may damage the threading.

3. Usage:

- To operate the bolt, place your pointer finger in the finger groove.
- Pull back and push forward smoothly to manipulate the bolt.
- Always maintain a firm grip on the bolt knob during operation.

4. PostUse:

- After use, clean the bolt knob and surrounding area to prevent dirt buildup.

- Store the firearm in a secure location, ensuring the bolt knob is protected from damage.

Disposal Instructions

- Dispose of the bolt knob in accordance with local regulations.
- If the product is damaged or no longer in use, consider recycling the aluminum material where facilities exist.
- Do not dispose of in regular household waste.

Contact Information for Further Support

For any questions or concerns regarding the 419 Bolt Knob, please refer to the manufacturer's website or contact the authorized dealer from whom you purchased the product.

Thank you for prioritizing safety and for choosing Area 419. Enjoy your enhanced shooting experience!
