## The Ultimate Funnel for Reloaders

**BILLET ALUMINUM POWDER FUNNEL** The Area 419 billet aluminum powder funnel uses a system of interchangeable, caliber specific, heads to make it the ultimate funnel for reloaders available today. The Area 419 Funnel's interchangeable heads thread onto the funnel and are neck diameter specific for each caliber. They do not rely on fitting over the body of the case to hold in place. They are sized slightly larger than the neck diameter so that they hold solid on the case. Each head has a bore sized a few thousandths smaller than the bullet diameter, so maximum flow is achieved for each caliber. This is huge for the super ultra-magnum guys (375 Cheytac, 408 Cheytac, 50 BMG, etc). The interface between the heads and the funnel is designed in such a way that no kernels can ever get stuck between the two, as long as the head is tightened completely. 3/8" tall straight section at the top to help prevent kernels of powder from bouncing out when poured in. Smooth surfaces at the neck of the funnel and inside the heads promote quick flow and prevent any sticking kernels. **MADE IN USA!** From USA made aluminum, on a USA made HAAS mill, with USA made cutting tools! The Funnel's design is both aesthetic and performance driven. Being machined from a solid billet of 6061-T6 aluminum means no static charge to cling kernels to the funnel walls. This also makes it far safer for use with black powder. "Flutes" on the outside are for looks, on the inside though, they disturb the powder kernels from trying to jam up at the neck. It also gives some airspace so they do not get packed up so tightly, all aimed to increase flow through the nozzle. Billet Aluminum Powder Funnel only

## Attributes

- Name: [AREA 419 BILLET ALUMINUM POWDER FUNNEL](#)
- Manufacturer: [AREA 419](#)
- Product no.: 100032691
- Mfr. No.: 419-FN-BODY
- Caliber: Universal
- Delivery weight: 0.079kg
- Shipping height: 56mm
- Shipping width: 91mm
- Shipping length: 81mm
- UPC: 853675008723

# BILLET ALUMINUM POWDER FUNNEL Safety Instruction Guide

## Introduction

Thank you for purchasing the BILLET ALUMINUM POWDER FUNNEL by AREA 419. This product is designed to enhance your reloading experience with safety and efficiency. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure the product is used only for its intended purpose as a powder funnel for reloading ammunition.
- Keep the funnel and its components out of reach of children and vulnerable individuals.
- Always inspect the funnel and heads for any damage before use. Do not use if any part is damaged.
- Follow all local laws and regulations regarding the handling of ammunition and reloading components.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Use only the caliberspecific heads that are designed for the BILLET ALUMINUM POWDER FUNNEL.
- Ensure that the head is securely threaded onto the funnel before use to prevent any accidental dislodging.
- Do not force powder or kernels through the funnel; allow gravity to assist in the flow.
- Avoid using the funnel in a windy or unstable environment to prevent spillage.
- Do not use the funnel for any substances other than reloading powders.
- Regularly clean the funnel and heads to prevent any buildup of powder kernels that could obstruct flow.

## Instructions for Installation and Usage

### 1. Installation of the Funnel Head:

- Select the appropriate caliberspecific head for your reloading needs.
- Align the threads of the head with the funnel and gently screw it on until it is securely tightened.
- Ensure no gaps exist between the head and the funnel to prevent powder from escaping.

### 2. Using the Funnel:

- Place the funnel over the neck of the cartridge case securely.
- Slowly pour the powder into the funnel, allowing it to flow freely without force.
- Monitor the flow to ensure it is smooth and unobstructed.
- Once the desired amount of powder is in the case, carefully remove the funnel without spilling.

### 3. Cleaning the Funnel:

- After use, disassemble the funnel and head.
- Clean with a soft brush or cloth to remove any powder residue.
- Ensure all components are dry before reassembly.

## Disposal Instructions

- Dispose of any damaged or unusable components in accordance with local waste disposal regulations.
- Recycle aluminum parts where applicable, following local recycling guidelines.
- Do not dispose of powder or reloading materials in regular waste; follow hazardous waste disposal

guidelines.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the BILLET ALUMINUM POWDER FUNNEL, please refer to the manufacturer's website or contact their customer service for assistance.

Thank you for your attention to these safety instructions. Proper use and care of your BILLET ALUMINUM POWDER FUNNEL will ensure a safe and enjoyable reloading experience.
