

ROTARY MEDIA SIFTER

[Reloading](#) > [Case Cleaning](#) > [Case Tumblers & Accessories](#)

After you tumble your once-fired brass cases to a high shine, how do you separate your tumbling media from the cases themselves? Simple: grab the Hornady Rotary Media Sifter to separate the two components. After adding in your cartridge cases to the sifting drum, simply give the rotating handle a few turns and watch your corn-cob or steel-pin tumbling media fall to the bottom of the drum. A clear lid ensures that users can observe the process and know when their cartridges are clean and ready for loading.

Safety Instruction Guide for the Hornady Rotary Media Sifter

Introduction

Thank you for choosing the Hornady Rotary Media Sifter. This product is designed to help you efficiently separate tumbling media from your brass cartridge cases after cleaning. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always use the product according to the instructions provided in this guide.
- This product is intended for adult use only. Keep out of reach of children.
- Inspect the product regularly for any signs of wear or damage before use.
- Do not use the sifter for any purpose other than its intended use.
- Ensure that the sifting drum is securely attached before operation.
- Avoid placing fingers or any objects inside the sifting drum while it is in motion.

Specific Safety Precautions for Use

- **Electrical Safety:** The Hornady Rotary Media Sifter is not an electrical device; however, ensure that your work area is free from any electrical hazards.
- **Handling Media:** When using corncob or steelpin media, ensure that you are aware of any allergies or sensitivities you may have to these materials.
- **Eye Protection:** It is recommended to wear safety glasses to protect your eyes from any flying media particles during operation.
- **Work Area:** Use the sifter in a wellventilated area to avoid inhaling any dust or particles released during the sifting process.
- **Stability:** Place the sifter on a stable, flat surface to prevent tipping or spilling during use.

Instructions for Installation and Usage

1. Setup:

- Place the Hornady Rotary Media Sifter on a stable, flat surface.
- Ensure the sifting drum is securely attached to the base of the sifter.

2. Loading:

- Open the lid of the sifting drum.
- Add your cleaned brass cartridge cases into the drum along with the tumbling media (corncob or steel pins).
- Close the lid securely to prevent any media from escaping during operation.

3. Operation:

- Grasp the rotating handle firmly.
- Turn the handle in a clockwise direction for several rotations to initiate the sifting process.
- Observe through the clear lid to monitor the separation of media from the brass cases.

4. Completion:

- After a few turns, stop and carefully open the lid.

- Remove the clean brass cases from the drum.
- Check that all tumbling media has fallen to the bottom of the drum.

5. Cleaning:

- After use, clean the sifter and drum with a dry cloth to remove any residual media.
- Store the sifter in a dry place away from direct sunlight.

Disposal Instructions

- Dispose of any used tumbling media according to local regulations.
- Do not dispose of the product in household waste. Check with local authorities for proper disposal methods for nonfood products.

Contact Information for Further Support

For any questions or concerns regarding the Hornady Rotary Media Sifter, please refer to the manufacturer's contact information provided with your product packaging.

Conclusion

By following the safety guidelines and instructions outlined in this guide, you can ensure a safe and effective experience with your Hornady Rotary Media Sifter. Always prioritize safety and proper usage to maintain the product's integrity and your wellbeing. Thank you for your attention to these important safety instructions.
