

APOLLO MAX COMPENSATOR 6.5 CREEDMOOR - ULTRADYNE USA

APOLLO MAX COMPENSATOR 6.5 CREEDMOOR 5/8-24

[Rifle Parts](#) > [Muzzle Devices](#) > [Compensators & Muzzle Brakes](#)

Compensator Designed Expressly for Your Creedmoor

One of the highlights of the 6.5 Creedmoor is its reduced recoil compared to other short-action cartridges, but what if you could roll back that recoil even further? With the Ultradyn Apollo Max 6.5 Creedmoor Compensator, your precision rifle could stay steady on target, allowing for fast follow-up shots and quick target transitions. Each Ultradyn Apollo Max 6.5 Creedmoor Compensator is machined from durable, corrosion-resistant 416 stainless steel and fits most standard threaded muzzles. The design of the compensator ensures that shooters experience virtually zero muzzle climb. Fits 5/8-24 TPI threaded muzzles Compatible with Ultradyn Dynamount Weight: 4.4 ounces Includes 0.875-inch timing nut Not recommended for barrels shorter than 12" The Apollo Max 6.5 Creedmoor Compensator accomplishes this feat without venting muzzle gases up in front of the sight picture or back toward the shooter, so there's no disruption to get in the way of a follow-up shot.

Attributes

- Name: [ULTRADYNE USA APOLLO MAX COMPENSATOR 6.5 CREEDMOOR 5/8-24](#)

Safety Instruction Guide for APOLLO MAX COMPENSATOR 6.5 CREEDMOOR

Introduction

Thank you for choosing the APOLLO MAX COMPENSATOR 6.5 CREEDMOOR. This guide provides essential safety instructions, installation guidelines, and usage recommendations to ensure safe and effective operation of your compensator. Please read this document carefully before use.

General Safety Guidelines

- Ensure the product is suitable for your firearm and compatible with its specifications.
- Always wear appropriate eye and ear protection when using firearms equipped with a compensator.
- Store the compensator in a secure location, away from children and unauthorized users.
- Regularly inspect the compensator for signs of wear or damage before use.
- Follow all local laws and regulations regarding the use and installation of firearm accessories.

Specific Safety Precautions for Use

- Do not use the compensator on barrels shorter than 12 inches.
- Ensure that the compensator is properly installed to avoid any risk of detachment during use.
- Avoid venting muzzle gases towards the sight picture to maintain accuracy and safety.
- Be aware of your environment when firing, as the compensator may redirect gases and sound.
- If you notice any unusual behavior or performance issues, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

Installation

1. **Gather Tools:** Ensure you have the necessary tools for installation, including a timing nut wrench.
2. **Prepare the Firearm:** Make sure the firearm is unloaded and pointed in a safe direction.
3. **Remove Existing Muzzle Device:** If applicable, remove any existing muzzle device from the threaded muzzle.
4. **Clean Threads:** Clean the threads of the barrel to ensure proper fit.
5. **Install the Compensator:**
 - Screw the compensator onto the threaded muzzle (5/824 TPI).
 - Handtighten the compensator until snug.
 - Use the timing nut to secure the compensator in the desired position.
6. **Check Alignment:** Ensure that the compensator is aligned correctly and does not obstruct the sight picture.

Usage

- After installation, perform a function check to ensure the compensator is securely attached.
- Fire the firearm in a controlled environment, observing the compensator's performance.
- Monitor for any signs of malfunction or improper gas venting.

Disposal Instructions

- Dispose of the compensator in accordance with local regulations concerning metal waste.
- If the compensator is damaged or no longer functional, do not attempt to repair it. Instead, follow local guidelines for safe disposal.

Contact Information for Further Support

For any questions or concerns regarding the APOLLO MAX COMPENSATOR 6.5 CREEDMOOR, please refer to the manufacturer's website or customer support resources. It is important to have access to professional assistance if needed.

By adhering to these safety instructions and guidelines, you can ensure a safe and enjoyable experience with your APOLLO MAX COMPENSATOR 6.5 CREEDMOOR. Thank you for your commitment to safety and responsible firearm use.
