

S&W M&P M2.0 FDE FLAT FACED FORWARD SET TRIGGER KIT - APEX TACTICAL SPECIALTIES INC S&W M&P M2.0 FDE FLAT FACED FORWARD SET TRIGGER KIT

[Handgun Parts](#) > [Trigger Group Parts](#) > [Trigger Parts](#) > [Triggers](#)

Forward Set Trigger: Reduces Trigger Pre-Travel and Over Travel. Increases reach length to trigger face for shooters with longer fingers. Allows shooter to position finger lower on trigger face for increased leverage and therefore take advantage of lower trigger pull weights for competition. Patent Pending Sear Actuator: Shortens the stroke of the trigger pull by dropping the striker at a point farther forward than the factory component. Ultimate Striker Block Kit: Improved radius on the Striker Block Face produces a smoother trigger pull and eliminates most false reset issues. Forward Set Spring Kit: The full spring kit produces a 4lb to 5lb trigger pull. Expected results: Trigger pull weight between the 4lb and 6lb mark (Dependent on trigger return spring and sear spring installed) Smooth uptake and reset Reduces Pre Travel Reduces Over Travel Center mounted pivoting safety maintains factory safety values Works with S&W M&P M2.0 pistols in 9mm, .40 S&W, and .45 ACP calibers Does NOT function in the original M&P or M&P Shield models

S&W M&P M2.0 FDE Flat Faced Forward Set Trigger Kit Safety Instructions

Introduction

Thank you for choosing the S&W M&P M2.0 FDE Flat Faced Forward Set Trigger Kit by Apex Tactical Specialties Inc. This guide provides essential safety instructions and usage guidelines to ensure your safety and the proper functioning of your product. Please read this document carefully before installation and use.

General Safety Guidelines

- Ensure that the product is used only with S&W M&P M2.0 pistols in 9mm, .40 S&W, and .45 ACP calibers.
- This trigger kit is not compatible with the original M&P or M&P Shield models.
- Always handle your firearm in a safe manner, treating it as if it is loaded.
- Keep the trigger kit and all firearm components out of reach of children and unauthorized users.
- Follow all local laws and regulations regarding firearm modifications and usage.
- Regularly inspect the trigger kit for any signs of wear or damage before use.

Specific Safety Precautions for Use

- **Trigger Pull Weight:** The trigger pull weight can range between 4 lbs and 6 lbs, depending on the trigger return spring and sear spring installed. Ensure you are comfortable with this weight before using the firearm.
- **Finger Placement:** The forward set trigger allows for lower finger placement on the trigger face, which can increase leverage. Ensure that your finger is positioned correctly to avoid accidental discharges.
- **Sear Actuator:** The patentpending sear actuator shortens the stroke of the trigger pull. Be aware that this change can alter the feel of your firearm's trigger response.
- **Safety Mechanism:** The centermounted pivoting safety maintains factory safety values. Always ensure that the safety is engaged when the firearm is not in use.
- **Installation:** Follow the installation instructions carefully to avoid any potential hazards related to improper installation.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the factory trigger and components according to the manufacturer's instructions.
- Install the Forward Set Trigger Kit components as per the detailed installation guide provided with your product.
- Check that all components are securely in place and functioning correctly before reassembling the firearm.

2. Usage:

- Always perform a function check after installation to ensure that the trigger operates correctly.
- Practice safe handling techniques when using your firearm, including keeping your finger off the trigger until ready to shoot.
- Familiarize yourself with the new trigger pull before engaging in live fire to ensure comfort and control.

Disposal Instructions

- Dispose of any packaging materials in accordance with local waste disposal regulations.
- If the trigger kit or any of its components become damaged or unusable, follow local regulations for the disposal of firearm components.
- Do not dispose of the trigger kit in regular household waste; contact your local waste management facility for guidance.

Contact Information for Further Support

For any questions or concerns regarding the S&W M&P M2.0 FDE Flat Faced Forward Set Trigger Kit, please refer to the manufacturer's contact information provided with your product. It is important to reach out for assistance if you experience any issues or have safety inquiries.

This safety instruction guide is designed to promote the safe and effective use of your new trigger kit while complying with the EU General Product Safety Regulation. Always prioritize safety and responsible firearm handling. Thank you for your attention to these important guidelines.
