

PERFECT DOT TRITIUM NIGHT SIGHTS FOR CZ - NIGHT FISION CZ P-10C WHITE FRONT & BLACK REAR, U NOTCH REAR

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

Offers Easy Target Acquisition in Any Environment

Those in-the-know on concealed-carry guns realize that a good personal-defense gun has to be usable in any kind of lighting situation, which requires the use of night sights that are visible in low-light conditions. For fans of the CZ P10-C, Night Fision created its Perfect Dot Night Sights as the ideal sighting solution for low-light use. Like other night sights on the market, the Night Fision Perfect Dot Night Sights use tritium-filled vials that are self-illuminating for long periods of time, ensuring that shooters can get a clear view of the front sight on their handgun. However, what sets these sights apart is the use of 30 percent more tritium than comparable options, making the sights brighter than your average night sights and easily detectable when shooting at night. Sold in front/rear pairs only Housing machined from 4140 steel All-black, nitride finish Available in yellow/white, white/black, orange/black and yellow/black outline colors During daylight shooting, a fluorescent material surrounds the tritium vial, providing a uniquely bright aiming point that's easily seen while shooting in bright light. Illumination is found in both the front and rear components of the Night Fision Perfect Dot sights, but the front sight glows brighter than the rear, instinctively guiding shooters toward that front-sight focus.

Consumer Safety Instruction Guide for PERFECT DOT TRITIUM NIGHT SIGHTS FOR CZ P10C

Introduction

Thank you for choosing the Perfect Dot Tritium Night Sights for your CZ P10C. This guide provides essential safety instructions to ensure the proper use and maintenance of your night sights. It is important to follow these guidelines to ensure your safety and the safety of others.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always handle firearms with care and treat them as if they are loaded.
- Keep night sights out of reach of children and unauthorized users.
- Regularly inspect your night sights for any signs of damage or wear.
- Report any safety concerns or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Do not attempt to modify or disassemble the night sights.
- Use only compatible firearms for installation to avoid malfunction.
- Ensure that the night sights are installed by a qualified gunsmith if you are not familiar with installation procedures.
- Avoid exposing the night sights to extreme temperatures or harsh chemicals.
- Always check that the sights are securely attached before use.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing sights from your CZ P10C using appropriate tools.
- Align the Perfect Dot Tritium Night Sights with the sight dovetail on your firearm.
- Securely fasten the sights according to the manufacturer's recommendations.
- Perform a visual check to ensure that the sights are properly aligned.

2. Usage:

- Familiarize yourself with the sight picture provided by the night sights.
- Practice shooting in lowlight conditions to become accustomed to the visibility of the sights.
- Always maintain focus on the front sight while aiming.
- Regularly check the illumination of the tritium vials and replace the sights if they become dim.

Disposal Instructions

- Dispose of used night sights in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Contact your local waste management authority for guidance on safe disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Perfect Dot Tritium Night Sights, please refer to the manufacturer's

website or contact their customer service for assistance.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of your Perfect Dot Tritium Night Sights. Always prioritize safety and be aware of your surroundings when handling firearms. Thank you for your attention to these important guidelines.
