

PERFECT DOT TRITIUM NIGHT SIGHTS FOR CZ - NIGHT FISION CZ P-10C ORANGE FRONT & BLACK REAR, U NOTCH REAR

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

Offers Easy Target Acquisition in Any Environment

Those in-the-know on concealed-carry guns realize that a good personal-defense gun has to be usable in any kind of lighting situation, which requires the use of night sights that are visible in low-light conditions. For fans of the CZ P10-C, Night Fision created its Perfect Dot Night Sights as the ideal sighting solution for low-light use. Like other night sights on the market, the Night Fision Perfect Dot Night Sights use tritium-filled vials that are self-illuminating for long periods of time, ensuring that shooters can get a clear view of the front sight on their handgun. However, what sets these sights apart is the use of 30 percent more tritium than comparable options, making the sights brighter than your average night sights and easily detectable when shooting at night. Sold in front/rear pairs only Housing machined from 4140 steel All-black, nitride finish Available in yellow/white, white/black, orange/black and yellow/black outline colors During daylight shooting, a fluorescent material surrounds the tritium vial, providing a uniquely bright aiming point that's easily seen while shooting in bright light. Illumination is found in both the front and rear components of the Night Fision Perfect Dot sights, but the front sight glows brighter than the rear, instinctively guiding shooters toward that front-sight focus.

Safety Instruction Guide for PERFECT DOT TRITIUM NIGHT SIGHTS FOR CZ P10C

Introduction

Thank you for choosing the Perfect Dot Tritium Night Sights for your CZ P10C. These sights are designed to enhance your shooting experience in lowlight conditions. To ensure your safety and the proper use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle firearms and accessories with care and respect.
- Ensure that the sights are properly installed before use.
- Regularly check the sights for any signs of damage or wear.
- Use the sights only as intended and according to the manufacturer's instructions.
- Keep the product out of reach of children and unauthorized users.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Visibility in Low Light:** The tritium vials are designed to provide illumination in lowlight conditions. Ensure that you understand how to align your sights properly in these environments.
- **Shooting Practice:** Familiarize yourself with the sights during daylight conditions to understand their alignment and aiming point.
- **Avoiding Hazards:** Do not attempt to modify or disassemble the night sights. Doing so may compromise their safety and functionality.
- **Age Restrictions:** This product is intended for adult users only. Keep out of reach of children.

Instructions for Installation and Usage

1. Installation:

- Ensure that your firearm is unloaded and pointed in a safe direction.
- Remove the existing sights from your CZ P10C using appropriate tools.
- Align the Perfect Dot Night Sights with the sight dovetails on your firearm.
- Secure the sights in place as per the manufacturer's guidelines, ensuring they are firmly attached.

2. Usage:

- Before using your firearm, confirm that the sights are properly aligned and functioning.
- Practice aiming with the sights in various lighting conditions to enhance your shooting skills.
- Regularly inspect the sights for any damage or wear, especially the tritium vials.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If the night sights become damaged, contact your local waste disposal service for guidance on proper disposal methods.
- Do not throw away the product in regular household waste.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the Perfect Dot Tritium Night Sights, please refer to the manufacturer's contact resources. Always ensure that you have the latest information and updates regarding your product.

Thank you for prioritizing safety in your shooting practices. Enjoy your enhanced visibility and improved accuracy with the Perfect Dot Tritium Night Sights.
