

X-RING/RUGER® 10/22® VARIANTS PERFORMANCE COMPENSATOR - TACTICAL SOLUTIONS, LLC X-RING PERFORMANCE SERIES .920" OD COMPENSATOR BLACK

[Rifle Parts](#) > [Muzzle Devices](#) > [Compensators & Muzzle Brakes](#)

Designed to Perfect the Performance of Your Competition 10/22

For those looking to get the best-possible performance from their 10/22, whether for competition or plinking purposes, Tactical Solutions developed a must-have addition in the form of its X-Ring Performance Compensator. This easy, add-on device works to keep a 10/22 muzzle directly in-line with the target at all times. The benefits of the X-Ring Performance Compensator don't stop there, though! The addition of this muzzle device also aids in increasing accuracy. Tactical Solutions designed this addition for its X-Ring lineup of performance-style 10/22s, but this muzzle compensator will enhance any 10/22 outfitted with standard muzzle threads. Each Tactical Solutions X-Ring Performance Compensator is machined from 6061-T6 aluminum and is treated with a black, anodized finish. The device measures 2 inches long, .920 inch wide, weighs 1.7 ounces and is compatible with all 1/2-28 TPI muzzle threads.

XRING/RUGER® 10/22® VARIANTS PERFORMANCE COMPENSATOR SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the XRING/RUGER® 10/22® VARIANTS PERFORMANCE COMPENSATOR by Tactical Solutions, LLC. This product is designed to enhance the performance of your 10/22 firearm while ensuring safety during its use. Please read this safety instruction guide thoroughly to understand how to use the compensator safely and effectively.

General Safety Guidelines

- Ensure that you are familiar with the operation and handling of your firearm before using the compensator.
- Always treat every firearm as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Store the compensator and firearm securely to prevent unauthorized access, especially from children.
- Regularly inspect the compensator and firearm for any signs of wear or damage before use.
- Do not use the compensator if you notice any defects or irregularities.
- Follow all local laws and regulations regarding firearm accessories and modifications.

Specific Safety Precautions for Use

- Use the compensator only with firearms that have standard 1/228 TPI muzzle threads. This compensator is not compatible with 1/220 UNF threads.
- Ensure that the compensator is securely attached to the muzzle of the firearm before firing.
- Do not exceed the recommended caliber specifications (22 Caliber [.223.224]) when using this compensator.
- Be aware of your surroundings and ensure that you have a clear line of sight to your target.
- Always wear appropriate eye and ear protection when firing your firearm.
- Avoid using the compensator in environments where it may be exposed to extreme heat or corrosive substances.

Instructions for Installation and Usage

Installation

1. **Ensure Safety:** Before installation, ensure the firearm is unloaded and pointed in a safe direction.
2. **Remove Existing Muzzle Device:** If applicable, remove any existing muzzle device from the firearm's muzzle.
3. **Clean Threads:** Inspect and clean the muzzle threads to ensure there is no debris or damage.
4. **Attach Compensator:**
 - Align the compensator with the muzzle threads.
 - Rotate the compensator clockwise until it is securely fastened.
5. **Check Tightness:** Ensure that the compensator is tight but do not overtighten, as this may damage the threads.

Usage

- After installation, conduct a function check to ensure that the compensator is securely attached.
- When ready to fire, ensure that your stance is stable and your grip is secure.
- Aim at your target and pull the trigger with a smooth motion.
- After firing, observe the compensator and firearm for any signs of malfunction.

Disposal Instructions

- Dispose of the compensator according to local regulations for metal and firearm accessories.
- Do not dispose of the compensator in regular household waste.
- If the compensator is damaged or worn beyond use, contact your local waste management facility for proper disposal methods.

Contact Information for Further Support

For any inquiries related to safety, performance, or product issues, please reach out to the manufacturer or authorized dealer. Ensure that you have the product details available for reference.

Conclusion

The XRING/RUGER® 10/22® VARIANTS PERFORMANCE COMPENSATOR is designed to enhance your shooting experience while maintaining safety. By following these guidelines and instructions, you can ensure a safe and effective use of this product. Thank you for prioritizing safety in your shooting activities.
