Easy Drop-In Trigger Featuring a Flat-Faced Design

There are lots of elements to love about Glock handguns, but one of those elements that isn't as great is the trigger feel. Luckily, the aftermarket offers a range of great options, and one of the best out there is the Syndicate Polymer Trigger, which incorporates design elements from popular Glock enhancer Agency Arms. Each Syndicate Polymer Trigger is a drop-in unit that features a flat-faced design for a more-consistent trigger press. One of the stand-out features of the trigger shoe is the toe located on the bottom for better indexing. Each trigger is constructed from polymer and is built with a factory-tuned OEM Glock trigger bar for enhanced performance. Syndicate Polymer Triggers are available for a range of Glock models, including Gens 1-4 of the G17, G19, G22, G23, G26, G27, G31, G32, G33, G34 and G35. Owners of Gen 5 Glock pistols can also get in on the enhancement, thanks to fits for the Gen 5 G17, G19, G19X, G26, G34 and G45.

Safety Instruction Guide for SYNDICATE POLYMER TRIGGER

Introduction

Thank you for choosing the Syndicate Polymer Trigger for your Glock handgun. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of the product. Please read this document carefully before installation and use.

General Safety Guidelines

- Ensure that the trigger is compatible with your specific Glock model before installation.
- Always handle firearms with care and follow all standard safety practices.
- Keep the product out of reach of children and unauthorized users.
- Inspect the trigger and your firearm for any signs of damage before use.
- Do not use the trigger if it appears damaged or malfunctioning.
- Report any unsafe products or accidents to the relevant authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Installation:** Only install the trigger if you have experience with firearm modifications. If unsure, seek professional assistance.
- **Trigger Press:** The flatfaced design of the trigger may change the feel of your firearm. Familiarize yourself with the new trigger before using it in a critical situation.
- **Indexing:** The toe on the bottom of the trigger shoe is designed for better indexing. Practice using this feature to improve your trigger control.
- **Performance:** Always test the trigger in a safe environment to ensure it functions as expected before using it in a live situation.
- **Storage:** Store the firearm in a safe place when not in use. Ensure the trigger is properly installed and secured.

Instructions for Installation and Usage

1. **Gather Tools:** You will need a punch tool and a small hammer for installation.
2. **Unload Firearm:** Ensure your Glock is completely unloaded before beginning the installation process.
3. **Remove Original Trigger:**
 - Use the punch tool to remove the trigger pin.
 - Carefully lift out the original trigger and trigger bar.
4. **Install Syndicate Polymer Trigger:**
 - Align the Syndicate Polymer Trigger with the trigger bar.
 - Gently press the trigger into place.
 - Reinsert the trigger pin to secure the new trigger.
5. **Test the Trigger:**
 - With the firearm still unloaded, pull the trigger to ensure it functions properly.
 - Check for any unusual resistance or movement.
6. **Reassemble Firearm:** Once the trigger is installed and tested, reassemble your Glock according to the manufacturer's instructions.
7. **Final Check:** Always conduct a final safety check before using the firearm.

Disposal Instructions

- Dispose of any packaging materials responsibly, following local waste disposal regulations.
- If the trigger needs to be replaced, follow local regulations for the disposal of firearm components.
- Do not throw the trigger or any firearm parts in regular household waste.
