

# **HARRIS BIPOD DIRECT MOUNT - KINETIC RESEARCH GROUP**

## **HARRIS S STYLE WIDE MOUNT**

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipod Accessories](#)

### **Rock Solid Bipod Mounting**

HARRIS BIPOD DIRECT MOUNT Mount your "S" series Harris Bipod directly to your KRG chassis, KRG Spigot Mount, or KRG Arca Clamp. This will minimize bipod twist and give a more solid mounting option. It also brings the bipod closer to the bore a small amount. Use this mount in conjunction with the KRG Arca Clamp and you can quickly move your bipod to any position on an Arca Rail such as the Forend Arca Rail or Arca Spigot. Also can be mounted to some items with Magpul L2 hole spacing (1.190"). The inline mounting version with two attachment screws \*which fits KRG chassis forends\*. SPECS: Fits: Inline version fits KRG chassis forends on Whiskey-3, X-ray, and Bravo, also KRG Spigot Mount and Arca Clamp. Hole spacing front to rear is 1.190" Weight: 1oz Inline, 1.3oz Wide Material: 7075 Aluminum with hard anodize Restrictions: Only works with swivel Harris bipods (S-series). For mounting on a Bravo, X-ray, Whiskey-3, or Spigot Mount KRG recommends using the inline version

### **Attributes**

# HARRIS BIPOD DIRECT MOUNT SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the HARRIS BIPOD DIRECT MOUNT. This guide provides essential safety instructions and usage information to ensure a safe and effective experience with your product. Please read this manual carefully before using the bipod mount.

## General Safety Guidelines

- Ensure the bipod mount is compatible with your equipment before installation.
- Inspect the bipod and mount for any signs of damage or wear prior to use.
- Keep the bipod and mount away from children and vulnerable individuals.
- Always follow the manufacturer's instructions for installation and usage.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recalls and safety updates via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Only use the HARRIS BIPOD DIRECT MOUNT with swivel Harris bipods (Sseries).
- Ensure that the mount is securely attached to prevent accidental detachment during use.
- Do not exceed the weight limit specified by the manufacturer for safe operation.
- Avoid using the bipod in extreme weather conditions that may affect its performance.
- Be cautious when adjusting the bipod position to prevent pinching or injury.

## Instructions for Installation and Usage

### Installation Steps

1. **Preparation:** Ensure all components are present and in good condition.
2. **Mounting the Bipod:**
  - Align the bipod attachment with the KRG chassis, KRG Spigot Mount, or KRG Arca Clamp.
  - Use the two attachment screws provided to secure the bipod in place.
  - Tighten the screws firmly, but do not overtighten to avoid damaging the mount.
3. **Positioning:**
  - Adjust the bipod to your desired position on the Arca Rail.
  - Ensure the bipod is stable and secure before use.

### Usage Instructions

- Ensure the bipod is properly mounted before use.
- Adjust the bipod legs for stability based on the terrain.
- Regularly check the attachment points for wear and retighten as necessary.
- Follow all safety precautions while using the bipod in the field.

## Disposal Instructions

- Dispose of the HARRIS BIPOD DIRECT MOUNT in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Contact your local waste management facility for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or additional support, please reach out to your local retailer or manufacturer. Ensure to have your product details available for reference.

By adhering to these safety instructions, you can ensure a safer and more enjoyable experience with your HARRIS BIPOD DIRECT MOUNT. Thank you for your attention to these important guidelines.
