

CUBE COMPENSATOR FOR GLOCK® - CGS SUPPRESSORS QUBE COMPENSATOR 9MM, 1/2X28, BLK/BLK

[Handgun Parts](#) > [Barrel Parts](#) > [Muzzle Devices](#) > [Compensators](#)

A Recoil-Reducing Add-On for Your Threaded Glock Barrel

This Qube compensator for your Glock is the first muzzle device for pistols on the market that doesn't require the use of set screws for attaching. Instead, this system uses a torque-based system to ensure that it stays secured into place, leading to fewer parts that can come loose or get lost during firing. Each Qube compensator is designed to fit many of today's popular Glock pistol models, including the G17, G19, G19X, G26, G34 and the G45, as long as the guns are equipped with threaded barrels. The compensator mount can be had in either 1/2-28 or M13.5-1LH threads that match the host barrel. This mount provides a taper-lock system that ensures the compensator won't rotate under extended strings of fire. Each Qube compensator measures 1.25 inches long, 0.825-inch high and 1 inch wide. The muzzle device is machined from 17-4H900 stainless steel and weighs 2.4 ounces.

Attributes

- Name: [CGS SUPPRESSORS QUBE COMPENSATOR 9MM, 1/2X28, BLK/BLK](#)

CUBE COMPENSATOR FOR GLOCK® CGS SUPPRESSORS Safety Instruction Guide

Introduction

Thank you for choosing the CUBE COMPENSATOR for your Glock® pistol. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this manual carefully before using the compensator.

General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Ensure that the compensator is compatible with your specific Glock® model.
- Only use the compensator with threaded barrels as specified.
- Regularly inspect the compensator for signs of wear or damage.
- Store the compensator in a secure location, away from children and unauthorized users.
- Follow all local laws and regulations regarding firearm accessories.

Specific Safety Precautions for Use

- Do not attempt to modify or disassemble the compensator.
- Ensure the compensator is securely attached before use to prevent accidents.
- Avoid using the compensator with ammunition types that exceed the manufacturer's specifications.
- Always wear appropriate eye and ear protection when firing your weapon.
- Be aware of your surroundings and ensure a safe shooting environment.

Instructions for Installation and Usage

Installation

1. **Ensure Safety:** Before installation, ensure that your firearm is unloaded and pointed in a safe direction.
2. **Select the Correct Threads:** Determine whether your Glock® has a 1/228 or M13.51LH threaded barrel.
3. **Attach the Compensator:**
 - Align the compensator with the threaded barrel.
 - Use the torquebased system to secure the compensator. Follow the torque specifications provided by the manufacturer.
 - Ensure that the compensator is firmly in place and does not rotate.
4. **Final Check:** Doublecheck the installation to ensure that the compensator is securely attached.

Usage

- After installation, perform a function check to ensure proper operation.
- Fire the weapon in a controlled environment, monitoring for any unusual behavior or performance issues.
- If you experience any malfunctions, cease use immediately and consult a qualified gunsmith.

Disposal Instructions

- Dispose of the compensator in accordance with local regulations.
- Do not dispose of the compensator in regular household waste.
- If the compensator is damaged or no longer usable, consider recycling options for metal components.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the EUbased contact point provided by the manufacturer. Ensure that you have your product details available when seeking support.

By following these guidelines, you can help ensure a safe and effective experience with your CUBE COMPENSATOR for Glock® pistols. Always prioritize safety and responsible firearm handling.
