# STEEL 3DIE RIFLE SET LEE PRECISION STEEL 350 LEGEND 3DIE RIFLE SET Safety Instructions

## Introduction

Thank you for choosing the Lee Steel 3Die Rifle Set for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this guide carefully before use to familiarize yourself with the necessary precautions and operational procedures.

## General Safety Guidelines

- Always keep the reloading area clean and organized to prevent accidents.
- Use personal protective equipment (PPE) such as safety glasses and gloves while reloading.
- Ensure proper ventilation in the workspace to avoid inhalation of dust or fumes.
- Store all components, including dies and powders, out of reach of children and pets.
- Follow all local laws and regulations regarding the handling and storage of ammunition and reloading components.
- Regularly inspect your equipment for wear or damage, and replace any compromised parts before use.

## Specific Safety Precautions for Use

- **Lubrication:** As the dies are made of steel, it is essential to lubricate cases before resizing to prevent sticking and damage.
- **Handling of Components:** Always handle powders and primers with care. Avoid direct contact and ensure they are stored in a cool, dry place.
- **Die Setup:** When setting up the dies, ensure they are securely tightened to prevent movement during operation.
- **Bullet Seating:** Always doublecheck the seating depth of bullets to ensure they are within safe specifications.
- **DistractionFree Environment:** Avoid distractions while reloading. Focus is crucial for safe operation.
- **Emergency Preparedness:** Keep a fire extinguisher nearby and know how to use it in case of an emergency.

## Instructions for Installation and Usage

### 1. Setup:

- Gather all necessary components: Lee Steel 3Die Rifle Set, universal shell holder, powder dipper, and instructions/load data.
- Ensure your reloading press is securely mounted and stable.

### 2. Installing the Dies:

- Start with the Full Length Sizing Die. Insert it into the press and tighten securely.
- Follow with the Bullet Seating Die, ensuring it is set to the desired seating depth.
- Finally, install the Powder Through Expanding Die, adjusting as needed for the specific powder type.

### 3. Reloading Process:

- Prepare your cases by cleaning them and applying lubricant.
- Size the cases using the Full Length Sizing Die.
- Expand the case mouth using the Powder Through Expanding Die.

- Measure and pour powder using the powder dipper, ensuring accuracy.
- Seat the bullet using the Bullet Seating Die, checking the depth after each round.

#### **4. PostReloading:**

- Inspect all finished cartridges for defects.
- Store completed ammunition in a safe, designated area.

## **Disposal Instructions**

- Dispose of any unused powders and primers according to local regulations. Do not throw them in regular trash.
- Recycle or dispose of empty containers in accordance with local waste management guidelines.
- Ensure that all hazardous materials are handled and disposed of safely to prevent environmental harm.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the Lee Steel 3Die Rifle Set, please refer to the manufacturer's contact information provided with your product. It is essential to have an EUbased contact for safety inquiries.

## **Conclusion**

By following these safety instructions, you can help ensure a safe and enjoyable reloading experience with the Lee Steel 3Die Rifle Set. Always prioritize safety and adhere to best practices while handling reloading equipment and components. Thank you for your attention to these important guidelines.
