An Innovative Adapter That Blends Streamlight Lights With SureFire Tailcap Switches

More of today's clued-in rifle operators are understanding the benefits of the SureFire SR-D-IT and TNVC TAPS dual switches, which can be paired with laser/illuminators like the ATPIAL and DBAL series. With the Arisaka Tailcap Adapter, owners of Streamlight Protac Rail Mount 1 and 2 lights can employ these switches, as well as SureFire Scout tailcaps. In addition, the Arisaka Tailcap Adapter also helps to solve one of the major issues of the Streamlight Protac rail-mount lights. Since Streamlight did not incorporate a front battery spring into the light body, the battery can come off the front contact point during the sudden shock of rifle recoil, causing the light to flicker and blink. The adapter includes a removable O-ring on the front face, which allows the battery to remain secure during firing.

Attributes

- Name: [ARISAKA DEFENSE TAILCAP ADAPTER FOR STREAMLIGHT HL-X](#)
- Manufacturer: [ARISAKA DEFENSE](#)
- Product no.: 100034882

Safety Instruction Guide for TAILCAP ADAPTER FOR STREAMLIGHT

Introduction

Thank you for choosing the TAILCAP ADAPTER FOR STREAMLIGHT ARISAKA DEFENSE. This product is designed to enhance the functionality of your Streamlight Protac Rail Mount lights by allowing compatibility with SureFire switches and tailcaps. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in the product specifications.
- Always inspect the adapter and connected lights for any signs of damage before each use.
- Keep the product out of reach of children and vulnerable individuals to prevent misuse or accidents.
- Report any unsafe products or accidents to the relevant authorities and check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Battery Security:** The adapter includes a removable Oring that helps secure the battery during firing. Ensure that this Oring is properly installed and in good condition before use.
- **Recoil Management:** Be aware that sudden shock from rifle recoil can affect the battery connection. Use the adapter as instructed to minimize flickering or blinking of the light.
- **Compatibility Check:** Ensure that your Streamlight Protac Rail Mount light is compatible with the Arisaka Tailcap Adapter before installation.
- **Avoid Water Exposure:** Keep the adapter and connected lights away from water and extreme moisture to prevent damage.

Instructions for Installation and Usage

1. Installation of the Adapter:

- Remove any existing tailcap from your Streamlight Protac Rail Mount light.
- Align the Arisaka Tailcap Adapter with the light body and gently screw it into place until secure.
- Ensure that the removable Oring is positioned correctly on the front face of the adapter.

2. Using the Adapter:

- Connect your SureFire SRDIT or TNVC TAPS dual switch to the adapter.
- Insert a fully charged battery into the light, ensuring it makes proper contact with the adapter.
- Test the light to confirm that it operates correctly without flickering or blinking.

3. PostUse Care:

- After use, check the adapter and light for any signs of wear or damage.
- Clean the adapter and light with a dry cloth to remove any dirt or debris.

Disposal Instructions

- Dispose of the product in accordance with local regulations for electronic waste.
- Remove batteries from the adapter before disposal and recycle them according to your local battery recycling program.

Contact Information for Further Support

For any questions or concerns regarding the TAILCAP ADAPTER FOR STREAMLIGHT, please refer to the manufacturer's website or customer service for assistance.

Thank you for your attention to these safety guidelines. Enjoy using your TAILCAP ADAPTER FOR STREAMLIGHT safely and effectively!
