## An Easy Add-On That Keeps Your Free-Float Handguard Cool

If you've ever left your free-float handguard-equipped rifle out in the hot sun or put a bunch of rounds through it quickly, you know that your forend can get hot pretty fast. In fact, it can get hot enough that it's uncomfortable or impossible to get a solid support grip on your gun at times, which significantly impacts shooter effectiveness. That's why the SHTF + Stop Heat TransFer Wrap handguard cover is a must-have for those with handguards that warm up quickly. Each SHTF + Stop Heat TransFer Wrap handguard cover wraps around 9-15 inches of a rifle's handguard, preventing heat transfer and keeping a shooter's support hand cool. The wrap uses a specially developed thermal-insulating material that not only protects against heat but also prevents scratches and dings to your gun when used against barricades. Additionally, those using guns in extremely cold weather will also enjoy the protection it provides against freezing-cold metal handguards. Though the SHTF + Stop Heat TransFer Wrap handguard cover was designed for the AR-15, it will also work on FALs, Sterling submachine guns, M1 Garands and M14s, as well as any other rifle with a thin handguard that heats up quickly after rapid fire. Black and coyote-brown colors are available. The SHFT+ Short Handguard Cover is perfect for those SBRs, AR pistols, or BRN-180S uppers.

## Attributes

- Name: [SHTF+HANDGUARD COVER COYOTE BROWN](#)

# SHTF + Handguard Cover Safety Instructions

## Introduction

Thank you for choosing the SHTF + Handguard Cover. This product is designed to enhance your shooting experience by providing protection against heat transfer and ensuring a comfortable grip. To ensure safe and effective use, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Ensure that the handguard cover is compatible with your firearm before installation.
- Always inspect the product for any damage before use.
- Keep the handguard cover away from open flames or extreme heat sources.
- Store the product in a cool, dry place when not in use.
- Follow all local laws and regulations regarding firearm accessories.

## Specific Safety Precautions for Use

- Avoid using the handguard cover on firearms that exceed the recommended temperature limits.
- Be cautious when handling firearms immediately after use, as they may be hot.
- Ensure that the handguard cover is securely wrapped around the handguard to prevent slippage during use.
- Do not attempt to modify or alter the handguard cover in any way.
- If you notice any signs of wear or damage, discontinue use immediately and replace the product.

## Instructions for Installation and Usage

1. **Preparation:** Before installation, ensure that your firearm is unloaded and safe.
2. **Measurement:** Measure the length of your handguard to determine the appropriate size of the handguard cover.
3. **Wrapping:**
  - Align the handguard cover with the handguard of your firearm.
  - Wrap the cover around the handguard, ensuring it covers 915 inches as needed.
  - Make sure the cover is snug but not overly tight to avoid restricting airflow.
4. **Securing:** If applicable, use any provided fasteners or Velcro to secure the handguard cover in place.
5. **Final Check:** Once installed, check to ensure that the cover is properly secured and does not obstruct any firearm controls.

## Disposal Instructions

- Dispose of the handguard cover in accordance with local waste management regulations.
- If the product is damaged or no longer usable, consider recycling materials where possible.

## Contact Information for Further Support

For any inquiries regarding safety or product performance, please refer to your local regulations or contact the manufacturer directly.

By following these safety instructions, you can ensure a safe and enjoyable experience with your SHTF + Handguard Cover. Thank you for your attention to safety!
