## Offers Enhanced Stability

Right off the bat, it's clear why the WieBad Fortune Cookie Bags are named that way. Looking like a giant Chinese fortune cookie, the bag's unique shape is actually designed specifically to help precision shooters get the most-stable shooting position they can off an obstacle. Since stability is the goal with WieBad Fortune Cookie Bags, these aren't filled with lightweight material, like the company's other shooting bags. Instead, this bag uses extra heft to help shooters build a solid position, giving them an anchor point for making long, accurate shots. Available in coyote, OD green, black and multicam colors Measures 8 x 8 x 6 inches Weight: 5 pounds, 9 ounces Purpose-built for PRS competitions At the end of the day, the WieBad Fortune Cookie Bag is sized and built right to give precision shooters the tool they need for stability and accuracy on the most-demanding obstacles on their course. Most positional shooting bags are not filled firmly on purpose. The reason being a loose filled bag will fill in gaps, drape across obstacles, and create a more stable shooting platform than a firm filled bag.
