

D-50 LR/SR GEN 3 M3 PMAG - MAGPUL PMAG D-50 LR/SR GEN M3 .308 WINCHESTER 50RD FOR AR-308 BLACK

[Magazines](#) > [Rifle Magazines](#) > [Magazines](#)

The Magpul PMAG D-50 LR/SR GEN M3 is a durable, lightweight, highly reliable 7.62x51 NATO/.308 Winchester® 50-round drum magazine for SR25/M110 pattern rifles, and is capable of using longer-than-SAAMI®-spec match ammunition, up to 2.830" OAL, such as M118LR. Engineered to the same exacting standards as the famous Magpul PMAG® and PMAG D-60® AR/M4 drum magazines, the D-50 continues the PMAG tradition of high-capacity performance and dependability. Durable and Reliable The Magpul PMAG D-50 shares its DNA with the legendary Magpul PMAG GEN M3, which includes next-generation impact and crush-resistant polymer construction and the ability to seat fully loaded on a closed bolt. Robust stainless-steel internals withstand corrosion and long-term storage while loaded with no loss of function, spring fatigue, or reliability concerns. A slip-on semi-rigid dust cover prevents grit and debris intrusion during storage and transport. Easy to Use A ratcheting loading lever removes spring tension, making the D-50 easily loadable by hand. An anti-glare translucent window on the rear of the drum ensures quick positive visual indication of remaining ammunition, and the included dot matrix pattern allows for easy marking and identification. The D-50 can also be disassembled quickly with a simple flat blade screwdriver or other similar tool. Lightweight and Affordable At approximately 1.7 lbs. empty and 4.5 lbs. loaded, the Magpul D-50 is one of the lightest 50-round 7.62x51/.308 drums available and is priced well below current competition. Innovative The D-50's unique drum configuration gives it roughly the same overall height profile as a standard PMAG® 25 LR/SR GEN M3™ Window, making storage and shooting from various positions--including prone--nearly identical. Compatibility The Magpul D-50 was designed specifically for 7.62x51 NATO/.308 Winchester® ammunition. Use with other calibers such as .260 Remington® or 6.5 Creedmoor is not recommended. Optimized for use only with 7.62x51 NATO/.308 Winchester cartridges. Use with other calibers such as .260 Remington or 6.5 Creedmoor is not recommended. Compatible with older model Bushmaster .308 ORC, Remington R-25, and DPMS LR308 rifles, but NOT optimized for bolt lock functionality with newer models based on the DPMS GII design. NOT compatible with Armalite AR-10B, Springfield Armory M1A, Rock River Arms LAR8, FN SCAR 17S, PTR-91, HK417 or any other rifles that utilize M14, FN FAL, or HK 91/G3 patterned magazines.

Attributes

Safety Instruction Guide for Magpul PMAG D50 LR/SR GEN M3

Introduction

Thank you for choosing the Magpul PMAG D50 LR/SR GEN M3. This guide provides essential safety instructions to ensure the safe use of your magazine. Please read this document carefully to familiarize yourself with the product and its proper handling.

General Safety Guidelines

- Always treat the magazine as if it is loaded.
- Keep the magazine out of reach of children and unauthorized persons.
- Inspect the magazine regularly for damage or wear before use.
- Do not use the magazine with ammunition that is not specified (7.62x51 NATO/.308 Winchester).
- Always follow the firearm manufacturer's instructions regarding magazine compatibility and usage.
- Be aware of your surroundings and ensure that you are in a safe environment when loading or unloading the magazine.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the magazine is completely seated in the firearm before use.
- Do not attempt to modify or alter the magazine in any way.
- Avoid exposing the magazine to extreme temperatures or harsh chemicals.
- When loading the magazine, use the ratcheting loading lever to relieve spring tension.
- Always verify that the magazine is empty before disassembling for cleaning or maintenance.
- Store the magazine in a cool, dry place when not in use.

Instructions for Installation and Usage

1. Loading the Magazine

- Hold the magazine with the loading lever facing up.
- Use the ratcheting loading lever to relieve spring tension.
- Load the ammunition into the magazine by pressing down on the rounds until they are seated properly.
- Ensure that the antiglare translucent window is visible for ammo count.

2. Installing the Magazine in the Firearm

- Align the magazine with the magazine well of the firearm.
- Push the magazine firmly into place until you hear a click, indicating it is securely locked.

3. Removing the Magazine

- Press the magazine release button on your firearm.
- Pull the magazine straight out of the magazine well.

4. Disassembling the Magazine for Cleaning

- Use a flat blade screwdriver or similar tool to gently pry open the magazine.
- Remove the internals for cleaning and inspection.

- Reassemble the magazine after cleaning, ensuring all components are securely in place.

Disposal Instructions

- Dispose of the magazine in accordance with local regulations.
- If the magazine is damaged or no longer functional, do not attempt to repair it. Instead, follow local guidelines for safe disposal.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please refer to the product packaging for contact information. It is important to reach out to the appropriate support channels for assistance.

By following these safety instructions, you can ensure a safe and enjoyable experience with your Magpul PMAG D50 LR/SR GEN M3. Thank you for your attention to safety and proper usage.
