

NUCLEUS 2.0 & ARCHIMEDES BOLT HEADS AND EXTRACTORS - AMERICAN RIFLE COMPANY 0.473" RIGHT HAND BOLT HEAD AND EXTRACTOR

[Rifle Parts](#) > [Bolt Parts](#) > [Bolts](#)

A Caliber-Change Kit for Your Nucleus and Archimedes Rifles

American Rifle Company developed its Nucleus and Archimedes rifles to accept Savage-style small-shank barrels to give owners the ability to easily mount their own barrels without needing a gunsmith. This also provides the opportunity for these actions to become multi-caliber platforms with little effort, and the ARC Bolt Head and Extractors Kit makes this a possibility for owners of these guns. Each ARC Bolt Head is machined from hardened steel and treated with a DLC coating that wards off wear and corrosion. The bolts are available in a range of popular calibers, so all you need to do is swap out your barrel, and you're ready to run an all-new caliber in your dependable ARC action. Fits Nucleus 2.0 Actions and Archimedes Actions.

NUCLEUS 2.0 & ARCHIMEDES BOLT HEADS AND EXTRACTORS SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the NUCLEUS 2.0 & ARCHIMEDES Bolt Heads and Extractors from American Rifle Company. This guide provides essential safety information and instructions to ensure the safe and effective use of your product. Please read this manual thoroughly before installation and use.

General Safety Guidelines

- Ensure you are familiar with the safe handling and operation of firearms.
- Always follow the manufacturer's instructions and guidelines when using the NUCLEUS 2.0 & ARCHIMEDES Bolt Heads and Extractors.
- Store all components in a secure location, out of reach of children and unauthorized users.
- Inspect the product for any damage or wear before each use. Do not use if damaged.
- Report any unsafe products or incidents to authorities immediately.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Only use the NUCLEUS 2.0 & ARCHIMEDES Bolt Heads and Extractors with compatible firearms as specified by the manufacturer.
- Ensure that the bolt head and extractor are properly installed before use. Improper installation can lead to malfunction or injury.
- Do not attempt to modify or alter the bolt head or extractor in any way.
- Always wear appropriate eye and ear protection when using firearms.
- Keep the firearm pointed in a safe direction at all times, even when loading or unloading.
- Be aware of your surroundings and ensure a clear shooting area.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing bolt head and extractor following the manufacturer's instructions.
- Take the new NUCLEUS 2.0 or ARCHIMEDES bolt head and align it with the action of the firearm.
- Securely attach the bolt head and extractor, ensuring all components are properly seated.
- Doublecheck the installation for any misalignment or loose parts.

2. Usage:

- After installation, perform a function check of the firearm to ensure proper operation.
- Load the firearm only when you are ready to shoot.
- Follow all local laws and regulations regarding firearm use and ownership.
- Clean and maintain the bolt head and extractor regularly to ensure longevity and performance.

Disposal Instructions

- Dispose of any worn or damaged bolt heads and extractors in accordance with local regulations.
- Do not dispose of in regular household waste. Check with local authorities for proper disposal methods for firearm components.
