

SIG P320 GUIDE RODS - OBSIDIAN ARMS SIG P320 FULLSIZE GUIDE ROD, BLACK

[Handgun Parts](#) > [Recoil Parts](#) > [Recoil Spring Guide Rods](#)

With professional shooters in mind, the Obsidian Arms guide rod is made from high quality stainless steel that has been hardened and polished for the best wear resistance and smooth cycling. Weighing in at 1.6oz the additional weight compared to the factory spring assembly will provide better muzzle control and less flip when firing. With your preferred 1911 springs you will be able to tune your P320 to the most optimal recoil for your chosen load.

Obsidian Arms recommends starting with a 15lb spring. Features: High Quality Stainless Steel Compatible with 1911 Springs 1.4oz (spring adds about 0.2oz) Limited Lifetime Manufacturer Warranty Made in the USA

Safety Instruction Guide for SIG P320 Guide Rods by Obsidian Arms

Introduction

Thank you for choosing the SIG P320 Guide Rod by Obsidian Arms. This guide rod is designed to enhance your shooting experience by providing improved muzzle control and reduced flip when firing. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle firearms and related components with care and respect.
- Ensure that the firearm is unloaded before installing or handling the guide rod.
- Store the guide rod and any firearm components in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the guide rod for signs of wear or damage before use.
- Follow all local laws and regulations regarding firearm modifications and accessories.
- Seek professional assistance if you are unsure about installation or usage.

Specific Safety Precautions for Use

- Use only compatible 1911 springs with the guide rod to avoid malfunctions.
- Start with a 15lb spring as recommended by Obsidian Arms for optimal recoil tuning.
- Ensure that the guide rod is properly installed before firing the firearm.
- Avoid using excessive force during installation to prevent damage to the guide rod or firearm.
- If you experience any unusual behavior during operation, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and components, including the guide rod and your chosen 1911 springs.

2. Installation

- Remove the factory guide rod and spring assembly from the firearm.
- Insert the Obsidian Arms guide rod into the recoil spring tunnel of the firearm.
- Attach your preferred 1911 spring to the guide rod, ensuring it is seated properly.
- Reassemble the firearm according to the manufacturer's instructions.

3. Usage

- Once the guide rod is installed, perform a function check to ensure proper operation.
- Test fire the firearm in a controlled environment to confirm the guide rod's performance.
- Monitor the guide rod and spring for any signs of wear or damage after use.

Disposal Instructions

- Dispose of the guide rod in accordance with local regulations regarding metal waste.
- Do not dispose of the guide rod in regular household trash.
- If the guide rod is damaged or no longer usable, consider recycling it at a facility that accepts metal.

products.

Contact Information for Further Support

For any inquiries regarding safety, installation, or product performance, please refer to the manufacturer's contact information provided with your purchase. It is important to have access to support for any concerns that may arise.

Conclusion

By following these safety instructions, you can ensure a safe and enjoyable experience with your SIG P320 Guide Rod by Obsidian Arms. Always prioritize safety and seek assistance if you have any questions or concerns. Thank you for your commitment to responsible firearm ownership.
