

SIG P320 GUIDE RODS - OBSIDIAN ARMS SIG P320 X FIVE GUIDE ROD, BLACK

[Handgun Parts](#) > [Recoil Parts](#) > [Recoil Spring Guide Rods](#)

With professional shooters in mind, the Obsidian Arms guide rod is made from high quality stainless steel that has been hardened and polished for the best wear resistance and smooth cycling. Weighing in at 1.6oz the additional weight compared to the factory spring assembly will provide better muzzle control and less flip when firing. With your preferred 1911 springs you will be able to tune your P320 to the most optimal recoil for your chosen load.

Obsidian Arms recommends starting with a 15lb spring. Features: High Quality Stainless Steel Compatible with 1911 Springs 1.4oz (spring adds about 0.2oz) Limited Lifetime Manufacturer Warranty Made in the USA

Safety Instruction Guide for SIG P320 Guide Rods

Obsidian Arms

Introduction

Thank you for choosing the SIG P320 Guide Rod by Obsidian Arms. This guide rod is designed for professional shooters and enhances your firearm's performance. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Keep your firearm pointed in a safe direction at all times.
- Store your firearm securely and out of reach of children.
- Ensure that you are familiar with local laws and regulations regarding firearm ownership and usage.
- Always wear appropriate safety gear, including eye and ear protection, when handling firearms.
- Regularly inspect your firearm and its components for wear and damage.
- Report any unsafe products or accidents to the appropriate authorities.
- Check the EU's Safety Gate platform for updates on recalls and safety information.

Specific Safety Precautions for Use

- Only use the SIG P320 Guide Rod with compatible 1911 springs as recommended by Obsidian Arms.
- Ensure that the guide rod is properly installed before using your firearm.
- Do not exceed the recommended spring weight of 15lb unless you have consulted with a qualified firearms expert.
- Be aware of the additional weight (1.6oz) of the guide rod, which may affect the handling of your firearm.
- Always perform a function check after installation to ensure proper operation.
- If you notice any unusual behavior during operation, discontinue use immediately and consult a professional.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your firearm is unloaded and pointed in a safe direction.
- Gather necessary tools for installation, such as a screwdriver or wrench if applicable.

2. Installation:

- Remove the factory spring assembly from your SIG P320.
- Carefully insert the Obsidian Arms guide rod into the designated area.
- Ensure that the guide rod is seated properly and securely.

3. Spring Installation:

- Attach your preferred 1911 spring (starting with a 15lb spring is recommended).
- Ensure that the spring is correctly aligned and secured.

4. Function Check:

- After installation, perform a function check by cycling the action of the firearm without ammunition.

- Check for smooth operation and ensure there are no obstructions.

5. Usage:

- When ready to fire, load your firearm according to the manufacturer's instructions.
- Maintain proper shooting stance and grip to take advantage of the improved muzzle control.

Disposal Instructions

- Dispose of the SIG P320 Guide Rod and any associated components in accordance with local regulations for hazardous materials.
- Do not dispose of the guide rod in regular household waste.
- Contact your local waste management facility for guidance on proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety, installation, or product performance, please contact Obsidian Arms or your local firearms expert. Ensure that you have the product information on hand for reference.

Thank you for your attention to these safety instructions. Your safety and the safety of others depend on responsible firearm handling and maintenance.
