

# AR-15 LO-PRO SLOPE NOSE FREE FLOAT QUAD RAILS - PHASE 5

## TACTICAL 15 LOPRO SLOPE NOSE FREE FLOAT QUAD RAIL WITH M-LOK BLACK

[Rifle Parts](#) > [Build Kits](#) > [Handguards & Rails](#)

### Stays Solid Even in Tough Conditions

The Lo-Pro Slope Nose Free Float Quad Rail from Phase 5 gives your AR-15 a radical, futuristic look - but the looks are its least unique feature. The Lo-Pro is all about maximizing accessory mounting real estate, while minimizing weight and bulk. Hence, the front end that extends the top Picatinny rail well forward but slopes backward to the underside of the handguard to keep the "Slope Nose" as trim and maneuverable as possible. The Lo-Pro Slope Nose handguard comes in a Picatinny configuration with a full-length top Picatinny rail, plus partial Picatinny rail segments up front at the 3, 6 and 9 o'clock positions. The M-LOK® model has short Picatinny rail segments at the front and rear on top and rows of M-LOK® slots on the sides and bottom for an even more compact profile, yet not at the expense of accessory mounting freedom. Both models have pairs of side-positioned pushbutton QD sling swivel sockets at the front and rear. An overall "Coke bottle" contour means the part of the handguard your hand holds has an unusually small circumference that's easy to grasp. Machined 6061 T6 aluminum Matte black Type III hardcoat anodized finish Approx. 2.25" O.D., 1.35" I.D. Thoroughly de-burred for a smooth surface that's easy on the hand Non-rotating QD sling swivel sockets at front & rear sides Easy to install For use on AR-15 upper receivers only Available in a variety of lengths Picatinny railed & M-LOK® slot models to choose from Compactness and lots of accessory attachment points are only the part of the Lo-Pro Slope Nose Free Float Quad Rail's strengths. It also has Phase 5's ultra-secure True-fit™ mounting system that clamps around the entire circumference of the (included) proprietary barrel nut with six (6) evenly spaced attachment screws. Other mounting systems distort or pinch the handguard at the bottom, leading to excess stress on the 'guard or the barrel nut that can cause premature failure. Phase 5's True-fit system is extremely strong and secure! You can remove and reinstall your Lo-Pro Slope Nose handguard as often as you need to without risk of wearing it out.

The 10.5inch LPSN Quad Rail was inspired by lots of beneficial features that shooters have requested and demanded from us and other manufacturers. The slender design, longer nose, ease of installation and superior construction are some of the features that we designed into this system. Another development feature is the finish quality. The LPSN™ undergoes a rigorous extra de-burring process in order to ensure a smoother snag free finish. The details and level of care during the manufacturing of the LPSN10.5™ make it the perfect choice for everyone. The 10.5" LO-PRO SLOPE NOSE M-LOK Free Float Quad Rail was developed to accommodate the features of our 7.5" LPSN quad rail to a longer 10.5" version. # Safety Instruction Guide for AR15 LOPRO SLOPE NOSE FREE FLOAT QUAD RAILS PHASE 5 TACTICAL

## Introduction

Thank you for choosing the AR15 LOPRO SLOPE NOSE FREE FLOAT QUAD RAILS from Phase 5 Tactical. This guide provides important safety instructions and guidelines to ensure the safe and effective use of your product. Please read this document carefully before using or installing the rail system.

## General Safety Guidelines

- **Product Safety:** Ensure that the product is used according to the instructions provided. This product is designed for use with AR15 rifles and should not be used with any other firearm.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices related to this product. Follow any instructions provided in the event of a recall.
- **Online Shopping:** When purchasing online, ensure that you buy from reputable sources that comply with safety regulations.
- **Special Consumer Focus:** This product is intended for adult users. Keep it out of reach of children and vulnerable individuals.
- **EU Contact Point:** For any safety inquiries, please refer to the contact information provided by your retailer or manufacturer.
- **Rapid Alerts:** Check the EU's Safety Gate platform regularly for updates on product safety and recalls.

## Specific Safety Precautions for Use

- **Installation:** Ensure proper installation according to the instructions provided. Incorrect installation may lead to malfunction or accidents.
- **Inspection:** Regularly inspect the rail for any signs of wear or damage. Do not use the rail if it is damaged.
- **Mounting Accessories:** Only use accessories that are compatible with the MLOK system. Ensure they are securely mounted before use.
- **Firearm Compatibility:** Verify that the rail system is compatible with your specific AR15 model before installation.
- **Handling:** Always treat your firearm as if it is loaded. Follow all standard firearm safety practices when handling your rifle.
- **Shooting Environment:** Ensure that you are in a safe environment when using your firearm, and always follow local laws and regulations regarding firearm use.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools for installation (e.g., wrenches, screwdrivers).
- Ensure that your firearm is unloaded and pointed in a safe direction.

### 2. Installation Steps:

- Remove the existing handguard from your AR15 according to the manufacturer's instructions.
- Align the AR15 LOPRO SLOPE NOSE FREE FLOAT QUAD RAIL with the upper receiver.
- Securely attach the rail using the provided mounting hardware. Ensure all screws are tightened to the manufacturer's specifications.
- Verify that the rail is firmly attached and does not move.

### 3. Usage:

- Once installed, check that all accessories are properly mounted and secure.
- When using the firearm, maintain a firm grip on the rifle and be aware of your surroundings.
- Regularly check the rail and accessories for any signs of wear or looseness during use.

## Disposal Instructions

- **EndofLife Disposal:** When the AR15 LOPRO SLOPE NOSE FREE FLOAT QUAD RAIL reaches the end of its life, dispose of it in accordance with local regulations regarding firearm accessories.
- **Recycling:** If possible, recycle materials according to local recycling guidelines.

## Contact Information for Further Support

For any questions or concerns regarding the installation, usage, or safety of the AR15 LOPRO SLOPE NOSE FREE FLOAT QUAD RAIL, please consult the retailer from whom you purchased the product or refer to the manufacturer's website for additional resources.

Thank you for your attention to these safety instructions. Your safety and the safety of others is paramount. Enjoy your shooting experience responsibly.
