## **An Easy Enhancement for Your CZ-75 B**

Want to trim down the difference between that first double-action pull and the single-action second shot in your CZ-75 B? The Apex Tactical CZ-75 B Action Enhancement Kit is purpose-built to enhance the trigger pull in your go-to CZ pistol, reducing the difference between the two pull weights by as much as 2 pounds. When used with the Carry Mainspring, the double-action pull measures 7 pounds, while the single-action pull measures 5 pounds. If the Competition Mainspring is installed, the double-action pull drops to 6 pounds, while the single-action pull measures 4.5 pounds. Each Apex Tactical Action Enhancement Kit includes direct replacement parts for the factory hammer and sear. These precision-machined components are designed to provide a clean trigger break in single-action combined with a smooth, stack-free double-action pull that's consistent all the way through the firing process. Sear and hammer engagement surfaces are matched, so no stoning is required for a precision fit. This kit is not for use in decock or Omega models.

# CZ 75 B Action Enhancement Kit Safety Instruction Guide

## Introduction

Thank you for choosing the CZ 75 B Action Enhancement Kit from Apex Tactical Specialties Inc. This guide provides essential safety instructions to ensure the safe use and installation of the product. Please read this guide carefully before using the enhancement kit.

## General Safety Guidelines

- Ensure that you are familiar with the operation of your CZ 75 B pistol before installing the enhancement kit.
- Always keep firearms and related accessories out of the reach of children and unauthorized users.
- Use the enhancement kit only with the CZ 75 B model; it is not compatible with decocker or Omega models.
- Regularly inspect the enhancement kit and your firearm for any signs of wear or damage.
- Always follow local laws and regulations regarding firearm modifications and usage.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Before installation, ensure the firearm is unloaded and the magazine is removed.
- Wear appropriate safety gear, including eye protection, during installation.
- Handle all components of the kit with care to avoid injury.
- Do not attempt to modify or repair the enhancement kit yourself; seek professional assistance if needed.
- Be aware of the potential for the trigger pull weight to change after installation; practice safe handling at all times.
- Ensure that the firearm is pointed in a safe direction during testing after installation.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather necessary tools, including a punch tool and a small hammer.
- Ensure you have a clean, welllit workspace.

### 2. Installation Steps:

- Unload your CZ 75 B and remove the magazine.
- Disassemble the firearm according to the manufacturer's instructions.
- Remove the factory hammer and sear from the firearm.
- Install the new components from the Apex Tactical Action Enhancement Kit:
  - Insert the new sear into the designated slot.
  - Carefully install the new hammer, ensuring it is properly seated.
- Reassemble the firearm, following the manufacturer's instructions.
- Ensure all components are secure and functioning properly before use.

### 3. Testing:

- After installation, perform a function check to ensure the trigger functions correctly.
- Test the doubleaction and singleaction pulls to confirm the desired weight reduction.

#### **4. PostInstallation Care:**

- Regularly inspect the installed components for wear and tear.
- If you notice any irregularities, consult a qualified gunsmith.

## **Disposal Instructions**

- Dispose of any old parts and packaging in accordance with local regulations.
- Recycle materials where possible, ensuring that they do not pose a risk to the environment.

## **Contact Information for Further Support**

For any questions or concerns regarding the installation or use of the CZ 75 B Action Enhancement Kit, please refer to the manufacturer's website or customer support resources. It is essential to have access to professional guidance if you encounter any issues.

By following these safety instructions, you can ensure a safe and effective enhancement of your CZ 75 B pistol's performance. Thank you for your attention to safety.
